MONTREAL, THURSDAY, MAY 29, 1941

PRICE TWO CENTS

RETAIN IDEALS,
SAYS DR. JAMES
TO 1941 CLASSBaccalaureate Service Held in
Moyses Hall

M.R.T.B. PARADES

Ideals Needed to Provide
Faith and Basis for
Victory

"... The single-hearted devotion to an ideal which is essential to the attainment of victory in this war, is more important than victory itself," suggested Dr. F. Cyril James, in addressing students at the annual Baccalaureate service. Principal James pointed out that each graduating student "setting out to make your impression on the world of men and things," must make a self-examination and find in himself the ideal which will bid him throw all his resources into the struggle.

The devotional exercises, held in Moyses Hall, were conducted by Major the Rev. Dr. G. G. D. Kilpatrick, and were preceded by a church parade in which 180 members of the M.R.T.B., recently returned from camp, took part. The parade proceeded from the Sir Arthur Currie Memorial Gymnasium to Moyses Hall, where the principal's address was heard.

Following the service the salute of the M.R.T.B. was taken during the march past by Lieut.-Col. J. M. Morris, officer commanding the McGill C.O.T.C., accompanied by Principal James and Major Kilpatrick.

Said Principal James, in his address, "I cannot offer you comfortable platitudes that suggest you have an easy road to travel. The outer bastions of our civilization, the defences of our way of life, have already fallen. Reviewing the progress of the war, he stated that our forces have not yet gained one decisive victory.

"We dare not blind ourselves to the fact that our enemy is determined and skilful," continued the principal. "We must realize that the German armies... are probably the strongest force that any nation has ever thrown into a struggle, and," he warned, "we must remember that the prize which Germany hopes to win is world domination."

"That is the challenge with which we are faced now," said Dr. James, and went on to say that the answer to the challenge could be found in the power of an ideal, "an ideal that defined the goal so clearly that no effort was wasted and no man turned aside." Dr. James declared that each must recognize the conflict between the easy slope of appeasement and the rugged hill-path of idealism.

The principal concluded with the hope that each would find the splendor of idealism. "May you," he said, "see clearly in choosing between the alternate philosophies that confront you; may you, in the words of Cromwell's last prayer, receive from God constancy of judgment, one heart, a mutual love..."

A Note of Welcome

McGill welcomes to its campus today five world renowned personalities, who are to receive honorary degrees as a measure showing this university's appreciation of the services they have done and are doing in the cause of democracy.

As these degrees are given, it is our hope that the realization will come to all who believe in freedom that this university -- and indeed universities the world over -- cannot be criticized on the grounds of impracticality, of aloof detachment from the affairs of common men. These degrees are a symbol of the student's very vital concern in this immense conflict which cannot but affect all thinking men.

In our welcome to these five famous persons, and in the giving of the degrees, it is said that we honour them well and wisely. True it is that we seek to do so; yet their coming bestows not so much honour upon themselves that it does not reflect a little back upon the university. The degrees, which are at best a poor recognition of their service and distinction, symbolize our realization of the vast and pre-eminent importance of this war.

To Princess Alice, to Miss Dorothy Thompson, to the Right Hon. Malcolm MacDonald, to Dr. Hu Shih, and to Dean C. J. Mackenzie, we extend our welcome. We hope that they, and all men, will know that this is no mere formal, hackneyed occasion, but that these degrees truly represent the thought, the feeling, and the action being taken throughout the democratic world for the cause of freedom, and that we of the universities are in that struggle with all our heart.

Their Excellencies

Princess Alice, who today receives an LL.D. from McGill, shown with His Excellency the Earl of Athlone on their last visit to McGill during the Fall Convocation.

Week of Activities Held
For Graduating StudentsCO-EDS GATHER TO
BID CLASS ADIEUGraduating Class Holds Annual
Dinner

Over 300 co-eds gathered on May 9 to bid farewell to the graduating class of '41 at the annual Senior Dinner, in the Windsor Hotel. Mary Eddy, president of the class of '42 and R.V.C. representative on the Student's Council, was Mistress of Ceremonies.

Marjorie Gaunt, retiring president of the Women's Union, gave the toast to the Alma Mater, which was answered by Dr. Muriel Roscoe, Warden of the Royal Victoria College. Phyllis Buckingham's toast to the Faculty was answered partly in English and partly in French by Mme. Furness. Frances Cox gave the Valedictory.

In the absence of Sylvia Grove, Gladys Cottrell toasted the Seniors, and was answered by Winnifred Fairhead, president of the class of '41. The toast to the Under-graduates was given by Maryellen Rossister, and replied to on behalf of first year by Janet Hamilton; second year, Ruth Hill; third year, Patricia Nelson; Macdonald College, Jean Owen.

The toast to the Alumnae was given by Elizabeth Macdonald, house president of R.V.C. and was answered by Miss Muriel Wilson, president of the Alumnae Society. Katinka Aikins, editor of the "Forge" and former Women's Editor of the "Daily" gave the Class Prophecy.

Among the informal activities planned this week for the graduating class of '41 were class dinners, a tea, Convocation night at Belmont Park, and an informal dance at Douglas Hall.

On Monday afternoon the University Women's Club was "At Home" to the senior co-eds. Those brave souls who ventured to Belmont Park for Convocation Night that evening were forced by rain to keep to the indoor attractions, but the curtailment of activities did not seem to dampen their spirits.

About 200 students were present at the informal dance at Douglas Hall Tuesday night when the "monks" were hosts to the class of '41, while the graduates held class dinners last night. The climax of the week's social activities will be the Convocation Ball in the Sir Arthur Currie Memorial Gymnasium-Armoury tonight.

Jack L. Greenwood is the chairman of the Executive Committee in charge of Convocation Activities; Fred C. Moore is vice-chairman; Phyllis Buckingham, secretary; and Frank A. Norman, treasurer.

On the Dance Committee are Malcolm Heath, chairman; George C. McDonald representing Arts; John L. Maw, Engineering; Frank A. Norman, Commerce.

John L. Maw heads the Functions Committee; Dora Hart represents M.S.P.E.; Eric Smith, Macdonald College; and Lindsay Mussels, Dentistry.

GRADUATES OBSERVE
CAPPING CEREMONY

Featuring the actual convocation ceremony is a time-honoured institution known as the Capping Ceremony. Students receiving a bachelor's degree, an M.D., or D.D.S., are "capped," while those who receive a higher degree of a diploma shake hands with the Principal.

Members of the Graduating Class, upon reaching their seats before the ceremony, remain standing with caps on until those on the platform have taken their seats. Then, removing caps only for the Convocation Prayer and replacing them immediately afterwards if the ceremony is held outdoors, both men and women carry the caps with them when mounting the platform. Those not to be capped wear their caps when mounting, and raise them to the Principal with the left hand.

Approximately 30 medical students from the United Kingdom will arrive on this continent in August or September to spend the two final years of their education in Canada and the United States as the result of a \$100,000 appropriation by the Rockefeller Foundation to assist students whose schools have been bombed. Two students will be going to each university, including McGill.

GRADUATES' TEAS
THIS AFTERNOON

Although the customary Garden Party has been omitted from Convocation Day activities due to the war, graduates and their immediate families are invited to attend either of the teas at Douglas Hall or R.V.C. which are being held in conjunction with the inspection of University Buildings. Their Excellencies, The Governor-General and Princess Alice have signified their intention of being present at both teas during the afternoon. It is entirely optional upon the students which tea they elect to attend.

Tea will be served at Royal Victoria College during the afternoon and Their Excellencies will be present between 4.30 p.m. and 5 p.m. In view of this fact no one will be

permitted to either enter or leave R.V.C. between 4.15 p.m. and 5 p.m. As Their Excellencies intend to be present at Douglas Hall at 5 p.m., doors there will be closed at 4.45 p.m.

Assisting Dr. Roscoe, the Warden, with the reception at R.V.C. will be Margery Gaunt, President of the Women's Union; Elizabeth Macdonald, House President of R.V.C.; and Winnifred Fairhead, President of R.V.C. '41. Assisting Dr. Ross and Dr. Newton at Douglas Hall will be J. C. Gordon Young, President of the Students' Society; Jack L. Greenwood, Chairman of the Convocation Committee; and John Gilbert, House President of Douglas Hall.

To Receive Degrees Today

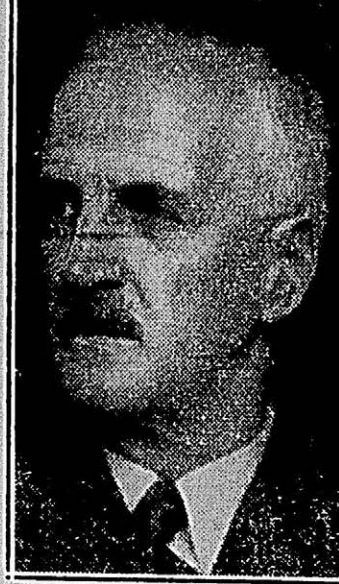

Above: Rt. Hon. Malcolm MacDonald, British High Commissioner to Canada, who will receive the degree of Doctor of Laws.

Above, right: Dr. Hu Shih, Chinese Ambassador to the United States, who will be made a Doctor of Literature.

Right: Dr. C. J. Mackenzie, acting president of the National Research Council of Canada, who will have conferred on him a Doctor of Science degree.

Convocation Procession

I enclose herewith a list showing the main sections of Convocation. From this you will see your position. I trust that you will find it convenient to be in your place not later than 9.45 a.m.

The Board of Governors, the Senate and those presenting candidates for diplomas or degrees will sit on the platform. The remainder of the staff will proceed to the special seats reserved for them as directed by the stewards.

Notice boards will mark the position of leading file in each section. As a rule two will walk abreast. Everyone is requested to keep moving forward until all gaps are closed up.

Stewards will be present to assist those taking part in the procession to find their correct places.

If Fine.

Convocation will be held on the University Campus and the procession will move off at 10.10 a.m. The Redpath Library will be used as a robing room and will be open during the Convocation from 12 noon to 2 p.m. only, so that you may recover any garments left behind there. The route of the procession will be down the main roadway of the Campus, turning left near the Roddick Gates and so up the centre aisle of the Convocation site.

The staff column of the procession will form up with its head at the eastern side of the Roddick Museum and its tail at the Redpath Library.

The graduates' column of the procession will form up with its head at the McGill Tomb, along the south side of the Arts Building, the western side of the Redpath Museum and the south side of the Presbyterian College.

The head of the staff column will join in behind the tail of the graduates' column.

IF WET.

If the weather does not permit an outdoor ceremony, Convocation will be held in the Sir Arthur Currie Memorial Gymnasium-Armoury

FIVE HUNDRED TO GRADUATE

DOROTHY THOMPSON

To Give Convocation Address

PRINCIPAL TO PRESIDE

Governor-General to Inspect M.R.T.B. Guard of Honour

M.R.T.B. BAND PLAYS

Ceremony to Be Held on Campus If Weather Permits

Five distinguished persons from four democratic nations will be honored at the convocation ceremony this morning. Her Royal Highness, the Princess Alice, who receives a Doctor of Laws Degree, will lead a procession which will represent the United Kingdom, United States, China, and Canada.

Such an array of international personalities, marks somewhat of an innovation at McGill's convocations. Each recipient is well-known in his or her own field and to the general public. His Excellency, the Governor-General, will also be present in his capacity of Visitor to the University.

Receiving honorary degrees in addition to Princess Alice are Right Hon. Malcolm MacDonald, British High Commissioner to Canada and former member of the British Cabinet; Dr. Hu Shih, Chinese Ambassador to the United States; Dorothy Thompson, brilliant American journalist and staunch champion of democracy, who will also deliver the Convocation Address; and Dr. C. J. Mackenzie, acting president of the National Research Council of Canada, the only Canadian to be honored.

Princess Alice, wife of the Governor-General, has already been honored by a great centre of learning and research, the University of London, which is being inflicted with heavy punishment by the Nazi bombardment of the city. Well received in this country, Her Royal Highness has achieved a reputation for her patronage of the arts and sciences, as well as being an exponent of clear thinking and graceful expression. She has shown in the past an interest in the University, and has actively participated in the life of the country since her arrival.

Son of Ramsay MacDonald and a noted Parliamentarian in his own right, Malcolm MacDonald will receive a Doctor of Laws degree. His record of public service has been distinguished. Entering Parliament in 1929 as a Labor M.P., he still maintains his seat.

Malcolm MacDonald entered the Ministry in 1931, holding the post of Parliamentary Under-Secretary for the Dominions until 1935, when he entered the Cabinet as Secretary of State for Colonies. At the same time he was made a member of the Privy Council. He has also held the office of Secretary of State for Dominion Affairs and the two offices of Minister of Health and of Colonies and Dominions combined.

The present British High Commissioner to Canada is 40 years old, and entered Parliament when only 28. Of late he has been active in urging the people of Canada to step up the war effort, and in driving home the significant part which this country plays, in supplying the materials of war today as well as in the post-war settlement and reorganization.

Receiving a Doctor of Literature Degree will be Dr. Hu Shih, renowned Chinese scholar. Dr. Hu Shih is recognized throughout this continent as the outstanding voice of Chinese democracy in the Americas. Regarded as one of the world's great philosophers, his career of public service is great. The present literary renaissance in China has been, in no small measure, due to a simplified alphabet which he invented.

Dr. Hu Shih's usefulness to the cause of China and his eminence were given recognition by General Chiang Kai-shek, who appointed him Ambassador to the United States in 1938. Previous to his appointment, he had held several professorships and a deanship in his native land, and among the other activities of public life in which he

BALL TONIGHT
TO FETE GRADS

Dancing in Gym to Begin at 10 P.M.

DECORATIONS READY

Supper to Be Served — Tickets Available to All at Door

The Convocation Ball, taking place tonight in the Memorial Gymnasium-Armoury at ten o'clock, will mark the end of Convocation week's activities. Arrangements have been made to clear the gym for the Ball if it is necessary to hold the Convocation exercises there; special crews are prepared to make final touches to the decorations in preparation for the affair, which is to take the form of a farewell party to members of the graduating class.

Dancing in the gym will begin at ten o'clock to the music of Blake Sewell's orchestra. Flags of all nations and regimental banners form the decorative motif. Decorations have been prepared under the direction of Mr. Bland of the faculty of Architecture, and Malcolm Heath, chairman of the Ball committee and graduating student in medicine.

Supper will be served to the tables shortly after midnight, but dancing will continue until three in the morning. A feature of the affair will be the presentation of awards to the prize winners of the Athletic Contests.

This year, contrary to the usual custom, tickets will be available at the door at the usual price of six dollars a couple, and several unreserved tables will be available. The sale of tickets, it has been announced, is not limited to members of the graduating class, but may also be bought by undergraduates in the university.

Dress is optional, either full dress or summer formal. Other members of the Ball committee include G. C. McDonald (Arts), John L. May (Engineering), and Frank A. Norman (Commerce). Patrons of the dance include Sir Edward Beatty, Principal James, and Margery Gaunt, president of the Women's Union, will make the presentation. Principal James will accept the tree on behalf of the university. Present in the enclosure will be members of the Convocation Committee, graduating students on the Students' Executive Council and other graduates holding senior campus positions during the past session.

In view of the widespread public interest which the convocation has aroused owing to the presence of distinguished personages and the scheduled address by Miss Dorothy Thompson, arrangements have been made to accommodate 5,000 if the ceremony is held outdoors. If unfavourable weather necessitates holding of the convocation indoors, (Continued on page 12.)

More than five hundred students will receive degrees and diplomas and five distinguished servants of democracy will be honored at the annual spring convocation to be held this morning. Governor-General Lord Athlone will be present in his capacity of Visitor to the University and will inspect a guard of honor composed of members of the McGill Reserve Training Battalion. Dorothy Thompson, one of the honorary-degree recipients, will deliver the convocation address.

Weather permitting, the ceremony will take place outdoors on the lower campus in front of the Chemistry building. If the weather is wet, the convocation will be held in the Sir Arthur Currie Memorial Gymnasium.

Dr. James Confers Degrees. In the absence of Chancellor, Sir Edward Beatty, the Vice-Chancellor, Principal James, will preside and confer the degrees. Recipients of honorary degrees are as follows:

Her Royal Highness the Princess Alice and Malcolm MacDonald, Doctor of Laws, honoris causa; Dean C. J. Mackenzie, National Research Council, Doctor of Science, honoris causa; Dr. Hu Shih, Chinese Ambassador to the United States and Dorothy Thompson, Doctor of Literature, honoris causa.

Graduates in the armed services will provide a novel feature to the occasion as they appear for their degrees with academic garb over their uniforms. The band of the M.R.T.B., which includes some of the graduates, will play for the ceremony. The guard of honor, also including some graduates, will be commanded by Captain Brown of the M.R.T.B.

Tree-Planting Ceremony. If the weather is fine, the convocation proper will be followed by a tree-planting ceremony in which the classes of '41 will present a tree to the university. The platform party will proceed to the site of the tree on the campus where Gordon Young, president of the Students' Society and Margery Gaunt, president of the Women's Union, will make the presentation. Principal James will accept the tree on behalf of the university. Present in the enclosure will be members of the Convocation Committee, graduating students on the Students' Executive Council and other graduates holding senior campus positions during the past session.

In view of the widespread public interest which the convocation has aroused owing to the presence of distinguished personages and the scheduled address by Miss Dorothy Thompson, arrangements have been made to accommodate 5,000 if the ceremony is held outdoors. If unfavourable weather necessitates holding of the convocation indoors, (Continued on page 12.)

ON THE RECORD

By DOROTHY THOMPSON

New York Is Not America

New York, May 27.—By and large anything to attract nationwide attention in this country has to originate in Washington, New York, or possibly in Chicago or Los Angeles, and have nationally known names attached to it. Washington and New York, and especially New York, are headquarters for all the various committees set up for the purpose of influencing American public opinion along one line or another—for instance, for or against the foreign policy of the Administration. The centres of the national news services and monthly publications of the country are edited here.

From either place one gets a considerably distorted picture of American public opinion, and this distortion is then nationally publicized. The two centres do not reflect the sentiment of the broad masses of people of the country, and much of the sentiment emanating from them is promoted or organized for the purpose of obtaining nationwide publicity.

This brings about confusion regarding the relative importance of certain personalities and movements over public opinion. (Continued on page 12.)

THE DECLINE OF RELIGION by Cecil P.

Martin; Allan and Unwin, London; 8/6d. G. K. Chesterton tells us that he dismisses the assertion of pseudo-scientists that their minds have been changed with regard to the religious ideas and beliefs which they formerly held, by asking them if, for instance, they had thought that Immortality was a gas? The book under review is a much more serious examination of the reasons which have caused scientists as well as lay people to adopt an attitude of anti-religious materialism.

The author, besides being chairman of the department, and Professor of Anatomy in the medical school at McGill, is also a leading anthropologist, and is therefore as well qualified as any to examine the claim that Science has displaced Religion. He offers as an apology for writing the book, the fact that other scientists have not hesitated to pass judgment on religion, and although many of them show an ignorance of the Bible and what it teaches because they have never taken the trouble to read it, yet they have "not allowed their ignorance to deter them from expressing the most emphatic opinion on the subject."

The major causes for the decline of religion (in essence, of Christianity, since this decline is most noticeable in countries which are nominally Christian), are described by Dr. Martin as, firstly, the progress of modern science, secondly, the faults and failings of the modern Church, and lastly, the problems caused by pain, evil, and death. In introducing these causes, a philosophical examination is made of the methods used by science on the one hand, and religion on the other, to arrive at knowledge. The former depends entirely on a series of objective tests and experiments, while the latter looks to subjective experience. The scientist can therefore not invalidate knowledge arrived at subjectively, simply because he does not have available means of testing such knowledge by experiments. Indeed, the scientist is caught in his own net, for he himself knows that subjective knowledge of his own aches and pains, and joys and sorrows, is infinitely more real than measurements and observations of external objects.

In dealing with the faults and failings of the modern Church, the author suggests that they are due to a universal tendency to find material expression for the ideal. Denominations, worldliness, exclusiveness, and a hierarchy of priests, have all contributed to the ill repute of the church, but these things do not present insurmountable difficulties to the honest searcher after Truth and God, nor have they destroyed the true message of the Church. On the problem of pain and evil and death, Dr. Martin writes: "Everything in life that is worth having can only come to us because we live in a world of sin and sorrow, and can only come insofar as we, by grace, triumph over sin and by sympathy share in the sorrow around us. We can match hate by love, and we can meet evil with good. . . . and in so doing learn what love and goodness are, or we can choose to match hate with hate, and refuse the sorrow of the world, and sink to death and misery in our selfishness. This is the essence of the Christian message. The way of the Cross is the only way to peace, and joy and happiness."

The perplexed student should find help to the solution of his problems here, and the student of philosophy will appreciate the clarity and conciseness of the epistemological argument. Those whose faith in religion has not been shaken will find much to set them thinking about how they can help remove the failings of the Church; and lastly, even the materialistic scientist will discover that his position is not as unassailable as he has fooled himself and his lay admirers into believing. —J. K. S.

MUSIC NOTES

RUMMAGING IN THE EDITORIAL DRAWER.

The music season locally outlived the college term by a wide margin. First there was the Beethoven Festival under Desire Defauw, which attained what must be an all-time high for orchestral playing in this country. A high-spot was the noble majesty of the Eroica, played with stoic adherence to rhythm and mood. Never before had the Orchestra of Les Concerts Symphoniques displayed such amplitude of tone, such an astonishing richness of texture. Gone was the occasional threadbare quality, the spotty balance between choirs that had marred their music in seasons past.

Outstanding emotional experience of the cycle was the Fifth, in a refurbished reading that showed none of the traces of mould-infested tradition into which too many performances of this symphony tend to fall. A splendidly-disciplined choir, Les Disciples de Massenet, joined Mr. Defauw's men for the Ninth together with a quartet of French-Canadian singers. With little of the confidence that was a feature of their work in the Elegiac Song the previous week, the four provided the single disappointment of the Festival by their carefully blended but too-timid singing. Especially Mr. Desmarais' opening invocation was fraught with a disturbing tremolo. But the performance as a whole exceeded in scope and in breadth any we had heard here before.

Next on the Spring agenda is the June Festival under Sir Thomas Beecham. Five concerts in all are to be given, one to be devoted in its entirety to Elgar's Dream of Gerontius. While not all of the artists participating have been announced, both Les Disciples de Massenet under Charles Goulet and Berkley Chadwick's Elgar Choir will participate. In addition, the tenor William Hain is to sing in the English oratorio, while Marcella Denys of the Metropolitan, last season's Melisande, will be heard in Gabriel Faure's Requiem. Purely symphonic works programmed include the Seventh Symphony of Sibelius and two of the

later symphonies of Mozart. . . . Of special interest to students, a young peoples' concert also under Sir Thomas' baton will be given on Saturday afternoon, June 7, in the College Auditorium at St. Laurent. Tickets are on sale at the Windsor Hotel office of the Festivals at .35, .50 and .75. The program will include the G Minor Symphony of Mozart, and Andre Mathieu's Concertino No. 2, with the brilliant young French-Canadian pianist as soloist. . . .

From Stockbridge, Mass., comes news of the annual Berkshire Festival featuring the Boston Symphony Orchestra under Serge Koussevitzky, together with the Berkshire Musical Association's chorus, and soloists Gregor Platigorsky, Leonard Shure and Ruth Posselt. Beginning on July 31 and continuing on alternate days through to August 17, the festival will include among works of the standard repertory, Hector Villa-Lobos' Choros No. 10, The Fifth Symphony of Shostakovich, Paul Hindemith's Cello Concerto, The Mozart Requiem, Beethoven's Missa Solemnis and the Violin Concerto of the young American composer, Samuel Barber.

—L. E. A.

Not About Men

By H.B.

We thought we had made our official adieu to the "Daily" and to our readers one windy day in March as we tucked our newspaper to bed for the year. Somehow we had not reckoned on the Convocation Issue. Not that we had forgotten about Convocation—oh no, that has been in our mind for a long time, four years at least. At any rate here we are back again under the old title "Not About Men," even though we were determined after we graduated to find out "all about men." Well enough of this rambling for now, we must get on with the news. . . .

We Look Ahead.

It was good to see the names of so many of our college friends in the past list for various degrees. After we receive our sheepskins this morning, we will all scatter in different directions to pursue our own individual paths. We never realized how true this was even though we have been hearing it for some time, until recently when we started asking different graduates their plans for next year. Many are joining up either the air force, the army or the navy and will perhaps be overseas before long; others are continuing their studies; still others are entering matrimonial life; while others are entering the business world. Some are destined for greatness, others—well who knows? At any rate, today's the day we look ahead, each to our individual goal. . . .

Today's the Day.

Did we say "big" day before? Well, big day it is. Seldom do we have so many distinguished people receiving honorary degrees at the same time. We must admit more than one graduate has waited that this year we (the graduates) will recede into the background in the face of our distinguished guests. Still we all consider it an honour to have such outstanding personalities as Dorothy Thompson, Princess Alice, Malcolm MacDonald and the rest receive degrees with us, and welcome them to McGill. . . .

Congrats! R.V.C.

R.V.C., McGill's stronghold for co-eds, which has fought so long to keep out male intruders, has finally let down its barriers and now will admit men into its fold. But don't get us wrong, it's for an excellent cause. R.V.C. has turned over its building to the R.C.A.F. to use as a training-ground for men for this summer only. Last summer it housed little English evacuee children, and this summer R.C.A.F. men. Good for R.V.C. . . .

Rain or Shine?

This time we won't say au revoir, as we already said that way back on a windy day in March. As this column is being penned our sole hope is a very short-ranged one, merely for nice weather Thursday a.m. for an out-of-doors Convocation. A short and simple hope but how we graduates want it. . . .

CARRY ON!

A toast! Not To the Class of '41, But FROM the Class of '41 to you! A toast to the years we spent at Old McGill! A toast! Why not! The Class of '41 is through.

A toast, my friends, to the Principal and Dean, The leaders and the friends of those who came— Of the men who came in search of Truth and Light, And now must leave, in search of life and fame.

A toast to Professors too, who through the years, Have born with patience, as Professors do, Our search for knowledge and the blinding truth— And taught us how little we really knew!

To the men and women in the years below, Freshmen, sophomores, juniors, partials—to those Who carry on the spirit of Old McGill, Hold high the Light against our Freedom's foes! Hold high the Light! You will not be alone! For we who go shall know with hearts aglow

The victories and trials of Old McGill; Our Alma Mater's glory we shall know! And we who go shall fight in Freedom's name The ignorance and hate that caused the war; And we shall know that you at Old McGill Will conquer these, as we the cannon's roar!

Carry on for Justice and for Right! Carry on! The Class of '41 is through! Carry high the torch of Truth and Light! Carry on!—And God Bless Every One of You!

—GEORGE BOURKE.

Yoohooditties

by Yehudy

Dramatic monologue between me and you . . . Just between me and you. . . . Oh hum. Should have gone to bed earlier last night.

Never been to convocation before. Wonder what it's gonna be like. Pretty dull, no doubt. Anyhow, it's a fairly good excuse to take the morning off from work. You know; second cousin's best son graduating a Plumber. Simply have to go to avoid disruption of the harmony of family life and all that.

Oh hum.

Who the devil is that woman? I've seen her somewhere before. She recognized me. Smile, Yehudy. That's right. Jumping jimminy, what's she wearing for a hat? Awful how some women can never find a thing to suit them in any earthly fashion.

They're off!

Look at the people graduating. Imposing, eh? The academic apparel ("Gown \$1.00; hoods \$1.50; caps 50 cents"—prices quoted from Instructions to Members of the Graduating Class.) is to them what the halo is to a saint. It sorta marks them off for their knowledge. There's that cute thing I took to the last hop. Somehow that doesn't seem possible now. She looks as if she knew everything about everything. I don't think I'll ever dare ask her out again. And there's Joe—Joseph I mean, Hello, Joseph, what'dya know? To think that we were at the Peel together yesterday!

Speeches, speeches, speeches.

Oh hum, oh hum, oh hum.

There's that woman again. She's smiling at me. Acknowledge the courtesy, Yehudy. Nice Yehudy. Who the hell is she?

The Valedictory. Haven't I heard it before? Must have been at high-school commencement. The same, same old stuff: "Thus end the happiest years of our lives. . . . Facing life. . . . Responsibilities and duties of the educated class. . . . Debt to the Alma Mater. . . . Yup, the same old hash. And the same old atmosphere: The excited graduate; the beaming Prof.; the proud Dad; the snivelling Mom; the bored uncle; the thrilled kid brother; the benevolent outsider; the stuck-up, unknown official on the platform; the fun-poking pal; the happy sweetheart; the cynical newspaper man. Things like that can't change, I guess. Perhaps they shouldn't. They must always remain the same. Yes, even the chill down the spine. So that's Dorothy Thompson!

More speeches, more speeches, more speeches.

More oh hum, more oh hum, more oh hum. "Damn that sun!" "I wish they had held this affair outdoors." (Suit yourself.) Think I'll doze off. Doze, doze, doze.

Hey! What was that? A laugh? Oh, someone tripped over his gown. He was capped on the floor. Heck! An honest citizen can't even take a nap in peace these days.

Let's see what's going on. Ah, this should be good. The actual convocation. Don't they look like sheep marching to the slaughter? And such precision! Have you read "Instructions to Members of the Graduating Class?" No, of course you haven't, since you are neither graduating nor a snooping columnist. Well, if you had read them, you would have known the little secret behind the precision and order of the ceremony. Allow me to quote therefrom for your enlightenment: "Please walk straight to the Chancellor or Vice-Chancellor, and stand still facing him so that the degree may be conferred in a dignified way." Cute, ain't it? More quote: "The Dean will call the names in order, as printed in the programme. Candidates should therefore be careful to see that they follow each other in order. If the proper seats have been occupied, they cannot fail to do so; but, as there may be some absent, each candidate should whisper his name to the Dean as he approaches him." I wonder what would happen if Kitty were to whisper "Mumblin' Minnie."

There certainly is enough of 'em, ain't there? Keep applauding, Yehudy, keep applauding.

. . . one hundred fifty six, one hundred fifty seven, one hundred fifty eight. . . . More to come. . . . more to come. . . . Keep applauding. . . . Oh hum.

Think I'll get some shut-eye. Excuse me, please. Damn! I stepped on the fat lady's corn. I beg your pardon, madam, I beg your pardon. She looks as though she isn't gonna give it to me.

Oh hum.

Well, so long, folks. I'll be seeing you at the next year's Convocation—or rather, you'll be seeing ME. . . . maybe. Don't tell me you read this far! Chee, tanxi.

Military Training

(Continued from Page Two)

demming basic military training and advocated the release of medical students from a burden which severely interrupted their studies; alternatives similar to those offered here were included in their resolution. At McGill, meetings of the pre-clinical years likewise protested against this training and offered further useful suggestions. We hope that the intelligent interest taken by the students in this problem will be rewarded by further consultation of their opinion since student representatives would render valuable assistance to any committee which may be established for the revision of the training scheme. The authorities can never expect the enthusiasm of the students in a plan such as prevailed this year; they need never demand it in the one suggested. That the execution of this plan, whose main outlines only we have indicated, would be more complex than its conception we would not deny, but no one can refuse longer to admit its necessity.

Mumblin' Minnie

People studied in couples a lot this year (We'll know who when the marks appear)

—This is sour grapes, as you will see, HE simply refused to study with me.

Uncensored

Well, I don't know who will be running this column next year, I had the cutest successor all picked out, but he joined the Diplomatic Service and says, I quote, "I don't think I can be mumblin' and diplomatic." I guess I misjudged the diplomatic service. Or haven't I been diplomatic? But after all I didn't say a word about the Purify Test they were giving at R.V.C. There were 10 easy questions with full marks for the answer 'never', half for 'occasionally', none for 'frequently' and a minus for 'no, but I've often wanted to'—or the less original 'certainly not'—besides it always gives me a headache.

Party-Party.

I had a wonderful time at the dance—of course it mostly Navy, but there were a lot of People too. . . .

But Smart.

"John doesn't seem to like his uniform as much as he used to" "Huh, it was fine until a small boy asked him if he was a street car conductor."

Definition of an Intellectual—

a person who has read a couple of books that you've read yourself.

MacDonald College.

"No," said an engineer—sorry, a nice engineer "I didn't like being at Mac. Gosh you take out a girl, and she has to be in so early that you have about an hour to do what you can take all night at McGill for." . . . Well I've never been out with that particular engineer—but I know his sister (telephone number on request.)

Exam Songs.

Before—"Do I worry? Am I frantic?" During—"What d'you know Joe?" "Don't know nuthin'" After—"It all comes back to me—now. . . ."

Women in Science.

"Are you going to learn this word by heart Jane?"

Gossip.

It is bad enough when a freshe forgets to write her history exam, but when people just don't come to an Honours English Exam—surely it proves something about our educational system. . . . Or am I getting my degree?

Wailed one brunette senior "All my friends who didn't go to McGill are getting married or having babies. I think college must have retarded me." Possibly, sister, possibly.

A Matter of Principal.

I am very much flattered When those in high places Remember my column—but—er—I'd have thought that it mattered To connect names with faces! My name is not Haverhill, sir.

Or Was It Rubbing Alcohol?

She sauntered into the exam And in her hand a glass Of rather potent liquid carried. (I hear she didn't pass).

KOUSSEVITSKY HEADS MUSIC CENTRE

Boston, May 28.—More than 700 applications for enrollment have been received for the Berkshire Music Center, the school directed by Serge Koussevitzky and sponsored by the Boston Symphony Orchestra. The Center, which was instituted last summer, will hold its second session at Tanglewood, Lenox, Massachusetts, from July 7 through August 17, its term to include the last three weeks of the Berkshire Symphonic Festival. Since the enrollment must be

Tribute to a Rosy Warrior

(Continued from Page Two)

You, who have waged war upon the white race, and attempted to divide it into superior white folk and inferior white folk, masters and slaves, or Churchill, who stands for the idea of commonwealth and equality?

Who is the prototype of the white man of the future, the world citizen, Churchill, or the world enemy? What do you hate in Churchill that you would not love in a German man? Do you despise him because he is a soldier, and a writer, and an artist? What has become of your charges of English money grubbers in the face of this rosy old warrior-artist?

And when you speak, Churchill, brave men's hearts everywhere rush out to you.

There are no neutral hearts, Winston Churchill, except those that have stopped beating. There are no neutral prayers. Our hearts and our prayers say, "God give you strength, God bless you." May you live to cultivate your garden, in a free world, liberated from terror, and persecution, war, and fear."

(Reprint courtesy Department of Public Information, Ottawa.)

"And aren't you glad now, said the father, "that you prayed for a baby sister?"

"Yes," replied the son, after another glance at the twins, "and aren't you glad I quit when I did!"

—Brunswickian.

CONVOCATION 1941

Not "Good Bye" But "Au Revoir"

We appreciate the loyal and kindly patronage of the members of the Faculty, the Graduating Class of 1941 and all the undergraduates during the past year.

University Announces Receipt
of Grants, Donations

Carnegie Corporation Gift
for Research Is Out-
standing

The receipt of a number of dona-
tions and grants has been made pub-
lic and acknowledged at the last
Governors' meeting, Monday the
19th of May. These include grants
to maintain various libraries and
for the furtherance of certain types
of research.

Among the most outstanding of
the gifts received is one from the
Carnegie Corporation to aid Dr. H.
Hibbert to complete certain bio-
chemical phases of research on the
mechanism of plant synthesis and
respiration. Included is another
grant from the Carnegie Corpora-
tion to the Library School, towards
the expenses of a summer library
institute for librarians in Western
Canada.

Another outstanding contribution
is an anonymous donation for Ex-
tension Services at Macdonald Col-
lege.

Following is a complete list of the
donations received:

Anonymous donation for Ex-
tension Services at Macdonald College,
\$1,100.00.

Mrs. H. B. Fantham, donation to
maintain the Fantham Memorial
Prize in Zoology, \$50.00.

A. H. Elder Esq., K.C., donation
to maintain the John Munro Elder
Prize in Anatomy, \$25.00.

Graduates' Society of McGill
University, donation from the Sir
William Dawson Memorial Library
Fund to purchase books for the
Redpath Library, \$250.00.

Mrs. Campbell Howard, donation
to maintain the Campbell Howard
Prize in Clinical Medicine, \$50.00.

Montreal Dental Club, donation
to purchase books for the Faculty
of Dentistry, \$75.00.

Mount Royal Lodge No. 729, Bnai
Brith, donation to maintain the
Bnai Brith Bursaries, \$300.00.

Alumnae Association of the
School for Graduate Nurses. Dona-
tion to be added to the endowment
of the Flora Madeline Shaw Mem-
orial Fund, \$600.00.

Dr. P. D. Ross, donation to main-
tain the P. S. Ross Exhibition,
\$100.00.

Dr. Casey A. Wood, donation to
maintain the Wood Library of Ornithology,
\$1,036.55.

Montreal Women's Branch of the
Canadian Institute of Mining and
Metallurgy, donation to augment
the loan fund for students in Min-
ing, Metallurgy and Geology,
\$150.00.

Jacques Royer, Esq., donation for
new equipment in the Department
of Mining and Metallurgy, \$50.00.

The Picker X-Ray Company of
Canada, donation of radiological
equipment to the Department of
Physical Education to facilitate the
medical examination of University
students.

Mr. F. N. Southam, donation to
Macdonald College, \$500.00.

Carnegie Corporation, grant to
aid Dr. H. Hibbert to complete cer-
tain biochemical phases of research
on the mechanism of plant syn-
thesis and respiration, \$2,000.00.

The Frances Willard Women's
Christian Temperance Union of
Westmount, donation for a prize at
Macdonald College in the subject
of Physiology and Hygiene, \$10.00.

Mr. J. G. G. Kerry, a gift of elec-
trical instruments to the Faculty
of Engineering.

Dr. H. Hibbert, three ornaments
of hematite.

Mrs. C. Sydney Lyman, collec-
tion of pressed flowers.

Prof. J. W. Bell, mounted butter-
fly from Cuba.

Mr. J. G. George, specimen of
Columbaria and collection of con-
cretions from Eganville, Ont.

William Scully Limited, one plate
glass showcase.

Mr. John K. Steen, two fox skulls,
three mink skulls and snapping

Following the retirement of Dr.
J. C. Simpson, dean of the faculty
of medicine at McGill for the past
session, the Senate announced the
appointment of Dr. J. C. Meakins,
at present associate dean of the
medical faculty, to the post.

Announced at the same meeting
was the retirement of Professor P.
J. Turner as acting director of the
school of architecture, who has
been at McGill for more than 33
years. Dr. J. A. MacMillan was pro-
moted from lecturer to professor in
ophthalmology. The retirement of
Professor C. E. Fryer and the ap-
pointment of Miss Francoise Lau-
rent as lecturer in French and re-
sident assistant to the Warden of
Royal Victoria College were also
announced.

Shortly after announcement of
Dean Simpson's retirement, a din-
ner was given in his honour by pres-
ent and past members of the Mc-
Gill Athletic Board. Several pres-
entations were made to the retiring
dean, including the "senior M" and
a certificate "for special merit." Dr.
Simpson had been for seven years
on the Canadian Intercollegiate
Athletic Union as member and
president.

Dr. Simpson's teaching connec-
tion with McGill began in 1903,
when he was appointed a demon-
strator in Zoology. However, he
left McGill on a scholarship to
England in 1907, where he first be-
came interested in sport. Two years
later he returned to Canada, having
travelled widely on the continent,
and, after a short time, took the
post of acting professor of zoology
at McGill.

In 1910 he was placed in charge
of the new department of histology
and embryology, and remained
with that department until 1936,
when he was made associate dean
of medicine, having previously
served as secretary of the faculty
since 1922. In 1940 he was made
dean.

Dr. Meakins, appointed to the
deanship as successor to Dean
Simpson, received his M.D., C.M.
degree at McGill in 1904. During
the war he left his post-graduate
studies and served as Major in the
McGill Hospital Unit. Except for
one short year, Dr. Meakins did not
return to McGill until 1924, when
he assumed directorship of the Mc-
Gill University medical clinic and
professorship of medicine.

In 1927 Dr. Meakins received the
L.L.D. degree from Edinburgh, and
became charter fellow and first
president of the Royal College of
Physicians and Surgeons of Can-
ada.

Professor Turner received his
professional training at the Archi-
tectural Association in London,
England, when he was awarded the
Silver Medal for obtaining the
highest standing in that school. He
was appointed in 1908 as Special
Lecturer in Building Construction,
Specifications and Professional
Practice. Dr. J. A. MacMillan re-
ceived his medical degree at Mc-
Gill University in 1906, and, after
graduate work abroad, he came to
McGill as assistant demonstrator
in 1912, being made a lecturer in
1937. Miss Francoise Laurent, is
from Bryn Mawr College, Bryn
Mawr, Pa.

The annual Convocation of the
faculties of Arts, Science, and Com-
merce of the Sir George Williams
College will take place on Tuesday
night, June 3rd, in Emmanuel
Church. It is expected that there
will be 34 candidates for the bache-
lor's degree, and 72 for the diploma
of associate.

The Baccalaureate Service will
take place in the Captain's Chapel,
on Sunday, June 1; there will be a
tea arranged by the women's clubs
of the college, and a Convocation
Ball at the Ritz-Carlton Hotel after
the exercises on June 3.

turtle skull and two fossils from
Onondaga formation, Millsonburg,
Ont.

Lieut. L. C. Charlton, manuscript
copy in French of a petition sent
to King George III in 1788.

Dr. R. A. Brown, collection of
minerals and rocks.

Dr. G. H. Cox, collection of Silur-
ian fossils from Arisaig, N.S.

Grant from the Carnegie Corpora-
tion to the Library School, towards
the expenses of a summer library
institute for librarians in Western
Canada, \$2,250.

Under a Dominion-wide plan to
train men as radio technicians for
the R.C.A.F., the campus will be-
come a semi-military camp this
summer. In conjunction with twelve
other universities across the Do-
minion, which are training 2,500
men in airplane detection, McGill is
planning to give a thirteen-week
course to 500 trainees.

These men are to be enlisted in
the R.C.A.F. and classed as second
class aircraftmen. Graduates of
outstanding ability, who are recom-
mended, will receive commissions.
Men taking the course are to be
billeted in the Royal Victoria Col-
lege and the Ecole Polytechnique,
and will take up residence on
Sunday.

Within recent months, Great Brit-
ain, with the aid of Canadian and
American scientists, has perfected a
new secret radio system of defence
against night bombing. Already
many men have been trained in
Canada and in England. Many
more, however, will be needed, and
it is the endeavor of the R.C.A.F.
to help fill this demand.

The trainees need only have their
junior matriculation and pass a
medical examination which is not
as rigid as that of other branches
of the R.C.A.F. The courses, which
begin on Monday, and which will
undoubtedly be of great advantage
in post-war life, will be in the fields
of electricity, radio, and magnetism.
Instruction will be given by the
department of physics in the
Physics Building, and will be under
the direction of Prof. David A.
Keys, who was actively associated
with the British Admiralty in re-
search work during the Great War.
The staff will consist of more than
20 lecturers and demonstrators.

MEDS RESOLVE
ON SINGLE AIM

Issue Declaration of Devot-
ion to Defeat of
Hitlerism

The Faculty of Medicine at Mc-
Gill has resolved to devote all its
resources and scientific investiga-
tion to the "single purpose of de-
fence of a besieged country and the
defeat of a military organization
which threatens free institutions
everywhere." A resolution to this
effect was passed at a recent meet-
ing of the Faculty.

The resolution stresses that "al-
though our responsibility for teach-
ing and the care of the sick is not
less, although it is recognized that
in normal times scientific work
should neither be coerced nor kept
secret, and although due acknowl-
edgment is made of the value of
essential investigations now in pro-
gress in this university, neverthe-
less, each department of this faculty
should now give further thoughtful
consideration to the abilities and
preoccupations of the members of
the staff, in order that the atten-
tion of those capable of effective
research may be directed toward
practical medical problems which
face the army, navy the air service,
and the civil population behind
them."

Miss Mary Dorothy Mawdsley,
B.A., M.A., Ph.D., has been ap-
pointed Dean of Women at the Uni-
versity of British Columbia. Miss
Mawdsley took her Bachelor's de-
gree from McGill; her Master's de-
gree from the University of British
Columbia; and her Ph.D. from Uni-
versity of Chicago.

Senate Pays Tribute
To Late Professor

In a formal resolution, the Mc-
Gill Senate recently paid tribute to
the late Dr. F. M. G. Johnson, who
for more than 30 years served the
university, and at the time of his
resignation in 1937 was director of
the department of chemistry.

Recording the Senate's deep sense
of regret at his death, and speaking
for the whole university, the reso-
lution stated, "... his death is a loss
to the community ... his personal-
ity is now part of our tradition.
... Those who knew him will re-
call him with affection and the
university will continue to remem-
ber him with honor and with grati-
tude."

Hugh Phillips Godard, who is re-
ceiving a Ph.D. degree in organic
chemistry in absentia today, was re-
leased by the university last Feb-
ruary to do essential war work. He
is now in charge of a British Gov-
ernment chemical laboratory at a
large explosive plant. While at
McGill, he did his research work on
the hydrogenation of wood.

Since Mr. Godard arrived at
McGill, he won three National Re-
search Council awards, after having
won a Carnegie scholarship, when
he graduated with honors in chemi-
cal engineering from the University
of British Columbia.

MANY AWARDS BESTOWED ON MCGILL GRADS

Judith Kennedy Wins Outstanding Prize

MANY GO TO U.S.A.

Nearly Half of National Research Council Fellows Coming to McGill

Miss Judith Kennedy, a McGill graduate and former assistant in the Department of English, has been awarded one of the greatest academic honors ever to be gained by a Canadian woman in the United States. Feature Editor of the Daily in 1937-38, Miss Kennedy is the winner of a \$1,200 Abbot Fellowship in English at Brown University, after two years of research there. The stepdaughter of McGill's Green-shields Professor of English Literature, Dr. Harold G. Files, she received her B.A. degree here in 1937 with first class honors in English. In her Graduate year she headed the Editorial Staff of the Forge, then in its first year of publication.

Miss J. V. Elizabeth Whitehead, B.A. '39, one of McGill's most brilliant graduates in English of recent years has been awarded a fellowship in English at Cornell University. She received her Master's Degree today.

Miss Harriet Bloomfield, who receives her Bachelor of Arts degree today has been awarded the Carola Woerishoffer Scholarship and will go to Bryn Mawr University.

Miss Bloomfield, retiring Women's Editor of the McGill Daily, who graduates with first class honors in Sociology, will continue her studies in Social research and economy at Bryn Mawr for her Master's degree in the coming year.

Miss Bella Levitt, who graduated from McGill in 1939, with the Henry Chapman gold medal and first class honors in classics, has been awarded the graduate residence scholarship in classics at Columbia University.

Dr. John S. L. Browne, assistant professor of medicine at McGill, has been awarded the Casgrain and Charbonneau prize for his research work this year. This award is presented each year for original work in the prevention or treatment of disease.

The Chester MacNaghten prize for the best piece of creative writing in English at McGill has been awarded this year to Dorothy Taylor-Stoll, a second year Arts student.

Seven scholarships have been given by the McGill University French summer school for students entering the annual summer session to begin this year on June 8.

Of the 64 Canadian students granted awards by the National Research Council, nearly one-half elected to continue their studies at McGill. These awards, ranging in value from \$1,000 to \$650, are given to students attending universities throughout Canada, but the students have the choice of attending a graduate school of their own choice.

The McGill Faculty of Graduate Studies and Research considers this a fine tribute to their place in Canadian Research. Most of the winners of the Council awards hold fellowships in physical chemistry, cellulosic chemistry, organic chemistry and biochemistry. Among other subjects in which fellowships have been won are physiology, anatomy, genetics and cytology.

55 GRADUATES GO ON ACTIVE SERVICE

Commerce Claims Largest Number of Class of '41 in Forces

Of this year's graduating class there are approximately 55 on active service. The faculty of commerce claims the largest proportion on active service since 16 of the thirty graduating are in some branch of the service. Dentistry follows with 5 out of 17 graduating on active service while the remaining faculties follow in close succession. In addition to the above there are four students from science, 12 from engineering, 10 from Arts, 4 from Law, and 2 from the graduate school.

Many More Students
A large number of these students are doing special work with the forces such as technical work with the navy while others are directly from the C.O.T.C. serving as commissioned officers. Listed below are the graduating students known to

WEINER CAPTURES DEBATING TROPHY

In the final contest for the Talbot Papineau Trophy, Mervin L. Weiner defeated E. H. K. Hugesson to take the Trophy. Weiner, a second year Arts student, has been recently elected to the executive of the Debating Society. Hugesson is a freshman in the Arts faculty.

The two finalists led a field of eleven contestants for the award. The Talbot Papineau Trophy is the supreme prize for public speaking at the university, and is symbolic of oratorical supremacy.

In the last of the intercollegiate debates, the University's good record was broken when the team was defeated by a team from Boston University. Ivy Lawrence and Donald Delvin upheld the McGill end of the argument.

WAR PROBLEMS ARE DISCUSSED

Canadian Political Science Association Meets

Deputy Minister of Labour and McGill Prof. Address Meeting

North America's wartime problems were considered at the thirteenth annual meeting of the Canadian Political Science Association, which was held at Queen's University, Kingston, May 22-24.

The problems and policies of wartime labour in Canada were described by Dr. B. M. Stewart, Deputy Minister of Labour. Dr. Stewart pointed out that the Dominion and Provincial Labour Departments have been understaffed for years, and that problems of geography and uneven distribution of population, as well as varying standards of living, make a wartime program difficult.

The Deputy Minister stated that in forming a labour policy the needs of the community at large were considered by the government, and that industrial conditions are good. There will be no profiteering in this war, he declared. Three serious problems in Canada today, said Dr. Stewart, are the questions of Dominion responsibility, wage policy, and supply of labour.

U.S.A. Labour Problems

Problems and policies in the U.S.A. were discussed by Dr. Hendricks, of the Department of Labour at Washington. The defence effort is the most dynamic force in the economic life of the United States today, stated Dr. Hendricks. He said that the shortage is not of man power, but of skills, and that the defence effort can be increased without upsetting the balance of the national economy. He stressed the fact that an effective working relationship between employers and employees must be worked out.

The problem of the American Japanese in the world crisis was treated by Prof. Forrest LaViolette, of the Department of Sociology at McGill. Dr. LaViolette stated that the question of what will happen to the American-born Japanese if and when war comes is stressed by Japan, but Japanese propaganda among these second-generation Nipponese is a failure, he added, because the Imperial Government sends out as propagandists men of prestige, who may not be at all suited for the job.

There are acute tensions between the two generations, he said, and the war issue has provided an outlet. The second generation will not sponsor or seek support for the present undeclared Sino-Japanese war, but wants to maintain a neutral stand.

It was not until the third draft that the American-born Japanese were included in the United States military training plan, Prof. LaViolette observed, adding that he thinks that the present development of trends will lead to a modification of their status.

Oriental Problem in B.C.

The Oriental Problem in B.C. was

on active service:

In Commerce: W. Armstrong, J. Beiford, J. Culley, W. Davey, B. Finestone, J. Hill, A. Holland, S. Jackson, P. Leslie, W. Mackay, R. Mackenzie, W. Morrison, G. Ritchie, R. Russell, E. Spencer, R. Thomson; Science: L. Nassbaum, H. Quinn, I. Roy, S. Wagner; Engineering: K. Beecher, G. Graham, W. Hayman, E. Jones, R. Jones, D. Lindsay, J. Lyons, G. McGibbon, J. MacNaughton, D. Ridge, V. Weidon; Dentistry: W. Bryant, F. Frederick, R. Harvey, H. Mussels, K. Walley; Graduate School: G. Brown (M. Eng.) W. Robinson (Ph.D.)

Students Contribute Over \$10,000 to War Effort

The photo above shows Gordon Young, president of the Students' Society, handing over a cheque for \$600 to Huntley Drummond, vice-chairman of the Wings for Britain Fund. One-sixth of this amount was raised by R.V.C., the rest of the money being a profit from the Gymkhana. Looking on are Margery Gaunt, Elizabeth McDonald, Principal James.

In a summary of the year's financial activities for the war effort, Gordon Young, retiring President of the Students' Council yesterday disclosed the following facts. The Red Cross drive on the campus netted \$570 in all while \$2,400 was the total in sales and pledges on behalf of the National War Savings Campaign.

The M.R.T.B.-Black Watch hockey match played at the Forum, produced \$3,000, the proceeds being divided evenly between both units.

From the Spring Gymkhana \$500 came in while an R.V.C. contribution swelled the fund by a further \$100. Finally, the Amalgamated War Services drive, canvassing among both students and staff grossed \$4,000 at McGill.

As a further feature of the university war effort, the Players' Club presented a special performance of Good Morning Bill for the benefit of the Edwin Baldwin Savage Chapter, I.O.D.E.

This represents a portion of the total moneys raised by McGill students throughout the year, amounting to a total exceeding ten thousand dollars in all drives. This represents a contribution of approximately three dollars per student.

DR. FRYER RETIRES AS HISTORY HEAD

Leaves McGill for Santa Barbara; Came Here in 1906

After 35 years of service on the staff of McGill University, Dr. Charles Edmund Fryer is retiring this year as Kingsford professor of history and head of that department.

Following the announcement, he left for California, where he is to live at Santa Barbara. Dr. Fryer, before leaving, was named the official representative of the university to the ceremonies marking Stanford University's fiftieth anniversary. A brief presentation ceremony was held, and he received a volume of P. G. Roy's "L'ile d'Orleans."

Dr. Fryer was invited to come to McGill in 1906. Since that time he has become known to the student body as a popular lecturer and to the general public as an extension course lecturer. He served on the McGill Corporation for 12 years and on the present University Senate for three.

After coming to the university, Dr. Fryer became successively lecturer, assistant professor, associate professor, and in 1935 was made Kingsford professor of history. He has headed the department since 1933, when he succeeded the late Dr. W. T. Waugh.

During his undergraduate days at the University of California, he served as editor of several student publications, and later served two years on the staff of the San Francisco Call.

considered by Prof. H. F. Angus, of the University of British Columbia, who declared that almost all Canadian-born Japanese are more Canadian than Japanese in culture.

Prof. S. Bates, of Dalhousie University discussed the Economics of Price Control, while the Procurement of Essential Supplies was treated by W. A. Mackintosh, of the Department of Finance.

War-time Information and censorship were also considered at this meeting. Brooke Claxton, M.P. for St. Lawrence-St. George, spoke on Public Information and Morale, while W. Eggleston, of the Censorship Co-ordination Committee, described Press Censorship. There is strict censorship of specific detail, but complete information about general affairs, he stated. He also told of the mechanisms of censorship.

Many Topics Considered.

Among other topics discussed by the Canadian Political Science Association were the War and North American Agriculture, Excess Profits, Consumption in Wartime, the Price System in Wartime, Demography, and Canada in Anglo-American Relations.

She passed, I saw and smiled
She turned and smiled
An answer to my smile
I wonder if she, too, could know
Her underwear
Hung down a mile?
—Brunswickian.

Complete Examination Results Given in Four Faculties

Though complete results of the final examinations are not as yet available, the following have been released by the University authorities.

In the Faculty of Dentistry, the honours and pass list shows that first place was won by a Chinese student, Wah Leung, a resident of North Bay. The full standings are given below:

HONORS
Anatomy, gross: Leung, Wah, Montreal.
Dental anatomy, practical: Ostapovitch, Peter A., Theodore, Sask.; Leung, Wah, Montreal; Ward, R. Preston, Outremont; Asselin, Chas. B.A., Montreal.
Dental anatomy, written: Leung, Wah, Montreal; Silver, Sidney, B. Sc., Montreal; Ostapovitch, Peter A., Theodore, Sask.; Cohen, Robt. H., B.Sc.A., Saskatoon, Sask.; Visser, Andrew A., Thetford Mines, Que.
Histology, general: Leung, Wah, Montreal.
Histology, dental: Leung, Wah, Montreal; Visser, Andrew H., B.A., Thetford, Mines, Que.
Physiology: Leung, Wah, Montreal.
Dental Metallurgy: Ostapovitch, Peter A., Theodore, Sask.; Burnett, Clyde K., Trinidad, B.W.I., and Silver, Sidney, B.Sc., Montreal, equal; Leung, Wah, Montreal; Cohen, Robt. H., Montreal; Waterman, M. J., B.Sc.A., Saskatoon, Sask.
Dental Materials: Silver, Sidney, B.Sc., Montreal; Leung, Wah, Montreal; Asselin, Chas. B.A., Montreal.
Prosthetic Technique: Leung, Wah, Montreal; Asselin, Chas. B.A., Montreal; Ward, R. Preston, Outremont; Newell, J. E., B.A., Hamilton, Ontario; Ostapovitch, P. A., Theodore, Sask.; Waterman, M. J., B.Sc.A., Saskatoon, Sask.; Visser, Andrew A., Thetford Mines, Que.

MCGILL UNION

First Woman Student To Win Debating Key

Ivy Lawrence established a precedent when she became the first co-ed to win a debating key, it was disclosed recently when the awards of the McGill Debating Union were announced. Other winners of the key, which is symbolic of high public speaking achievement, are Jack L. Greenwood, Jack Letchevsky, Allister MacDonald, and Robert Spencer.

Ivy Lawrence is in third year Arts, and was president of the Women's Debating Union. She has been active in public speaking at McGill, and recently debated against a team from Boston University.

The four other recipients of the key have all taken part in intercollegiate debates, and are active on the campus. Greenwood, retiring editor of the Daily, is chairman of the Convocation Week's Activities Program. Letchevsky is a graduate student and will receive his M.A. today. MacDonald is at

U. of M. Will Confer 8 Honorary Degrees

The University of Montreal will confer eight honorary degrees at its annual convocation in the St. Denis Theatre tomorrow morning. Msgr. Joseph Charbonneau, Archbishop of Montreal and chancellor of the university will preside. Those to be honored are Hon. William Bullitt, former United States ambassador to France; Professor James D. Shottwell, of Columbia University and member of the Carnegie Trust; General L. R. LaFleche, D.S.O., Deputy Minister of National War Services; Mr. Aime Geoffrin, K.C.; Hon. Henri Groulx, Provincial Minister of Social Welfare; Hon. Hector Perrier, Provincial Secretary; and Mr. James C. Bonar, of the Canadian Pacific Railway, and Mr. Arthur Vallee, K.C.

McGill this year on a N.E.C.U.S. scholarship. Spencer was president, this year, of the Arts Undergraduate Society.

Broken-Hearted Cavalier Story Has an Unexpected Conclusion

Daily Editors Meet Hero of Saga, Sergeant Tye, in Canteen at Three Rivers Military Camp

By H. S.
Perhaps one of you may remember 'l'affaire Corporal Roy Tye' which the Daily blithely ran way back in November when we were all younger and much more tolerant. The story concerned a letter received by the Lonely Hearts' Department from a member of His Majesty's Forces who had worked himself into the good graces of a pretty McGill co-ed while on the Toronto train, and who was then in hot pursuit of the fair damsel.

We were very sympathetic at the time, and went so far as to print subtle little excerpts from the letter so that true love might be served. In the light of important developments and repercussions let's glance over some of these excerpts.

The original letter asked for full information on a girl who "belonged to McGill," and who possessed "hair sort of red tinted, lovely complexion, lovely smile, and a wonderful personality." He had become interested when they had "talked back and forth at each other" across the aisle of a train, but at the time, had been "too dumb to find out her name." And so he had written, with pleas and sighs, to the "McGill Daily," that weekly paper published by the university.

Now this had not been a one-way flirtation. Nothing of the sort, for the co-ed evinced a definite interest. She had even promised to teach friend Tye how to knit, provided that he in turn would teach her how to roll her eyes just as he does. "Ah, it would have been nice to have known her longer," mused the corporal in his letter. And he was furthermore quick to assert that even though he was a soldier, there was definitely no "other woman" in the case.

And so the letter found its way into print, with a special note attached by the lovelorn editor telling how it may be answered. We sat back to await developments. Finally, they came. At camp in Three Rivers, last week, the editor-

GOVERNORS DENY TUITION FEE RISE

Spite Rumors Arising from Dr. Cody's Statement

The Board of Governors is not contemplating any increase in tuition fees during the next academic year, it was recently announced.

Rumors of an increase have been rife on the campus in recent weeks, since it was felt that the anticipated loss in revenue resulting from a diminished registration will have to be counteracted in some way.

Rev. Dr. H. J. Cody, president of the Conference of the Canadian Universities and the head of the University of Toronto, gave these rumors a measure of reality when he stated recently at the convocation at McMaster University, "It may prove difficult to carry on in the days to come; in time we may have to pool our resources, with one university specializing in one department and another in a different branch. We will have to co-operate to a greater degree than any of us have ever realized." Speaking at Hamilton, Dr. Cody said that Canadian universities may have to increase their fees as well. The Board of Governors of McGill has, however, expressly denied any such intention where McGill University is concerned.

He did not appear too ferocious or too irate, so he was asked to join the boys in a glass of water. Here, the sequel came out.

The power of the press is truly great. That we must admit. Not only is Tye a sergeant now, but he has also met the lady of the letter, and even corresponds with her quite regularly.

As for the original story which the Daily carried, Sergeant Tye was not at all disconcerted over it. In fact, he still carries a clipping in his pocket, and will show this to you very eagerly if you so much as suggest it. Most of the boys in the mess up at Coteau Barracks have already seen it, and Tye had to put up with a lot of good-natured ribbing. And this ribbing will also have a follow-up, for a copy of this story will soon adorn the Sergeants' Mess, despite Tye's desperate plea that we cease and desist.

But the ending of the story, and we sincerely hope that this is the final word, is an example of life at its best. Sergeant Tye gets married next month.

But this is not a Hollywood story. The ending will baffle you. For despite the chase, the publicity drive, the ribbing from the boys, the frustration, and the pain, Sergeant Roy Tye will marry another girl.

We hope that we are not breaking any poor young damsel's heart by exposing this double-face villainy. But the press must serve its function and exposed it must be. For the rogue has the effrontery to demand that "girl A" keep her original pledge and mail him the scarf which he is knitting. In return, he will keep his pledge, and teach her how to roll her eyes.

First Two M.R.T.B. Detachments Return From Camp

Supplementary Army Training Done at Three Rivers Training Camp

For the twenty-one to twenty-four year old class, and a few others who could be accommodated, the after-exam period was spent in soldier style at the Machine Gun Training Centre at Three Rivers. Engineers and Theological students finished their finals during the month of April and formed the first detachment of the McGill Reserve Training Battalion, with Major A. T. Field, M.C., as officer commanding the unit.

Faces browned by fourteen days of direct exposure to the sun, the first detachment returned to the relatively pale-faced city to have their palliasses occupied by the second detachment, comprising mostly Arts and Science, Music and Graduate students.

First Camp

Early on the bright morning of April 26th, some 15 members of the McGill Reserve Training Battalion entrained for Three Rivers to form what was known as an advance party to prepare for the first of the M.R.T.B. camps. Some members of the party were not quite as bright as the morning, having spent the previous night celebrating the end of their exams.

One of the first sights encountered at camp was a huge pile of bed springs and frames. To the accompaniment of much noise and labor, these were persuaded, often with violence, to form into 175 beds. Just as the last spring was being pounded into place an officer of the camp arrived and ordered an immediate change in method of assembly, for fear that something would be broken. The members of the advance party nodded heads innocently, and discreetly forbore to mention that 174 beds had already been "cold-worked" in this manner. After placing claims on the best beds, the 15 went forth to cope with a camp meal and the humor of the regular soldiers in the machine gun regiments training at the camp.

The remainder of the detachment marched into camp on the following day and soon had been issued their equipment, found out the location of the canteen and were struggling with the niceties of camp etiquette, such as when to salute who.

During the first few days sunburn was general and various creams and greases were much used. Dirt and dust clung tenaciously to these lotions, giving the group a villainous look. Boots that had seemed comfortable during the year began to pinch and chafe a bit when worn constantly. A member of a regiment of Highlanders in camp claimed that he could recognize any of the "Wee Cadets from McGill" by a limp and a red and dirty face.

The food was generally well liked but it took some time to acquire the knack of carrying at one time, a large bowl of soup, a huge mug of hot tea or coffee and a plate piled high with meat, potatoes, vegetables, gravy, bread and pie. The pie in particular had a perverse habit of flipping off the top of the pile onto the floor or of spreading its filling liberally through the gravy and potatoes.

A sort of production line method of washing dishes, which seemed to be about the ultimate in speed, was used. Each man passed along the side of a long deep trough which was lined with copper and full of very hot, soapy water. Small mugs suspended in the water were used to wash the dishes which were then rinsed in another trough. Occasionally a knife or fork would be dropped into the trough and the unfortunate owner would roll up his sleeves and plunge deep into the scalding hot water in search of it. As he groped for his property his friends would stand around, watching him, being slowly boiled and making comments about the fishing.

After a few days, taken up mostly with drill and marching, the detachment was well into the routine of the camp. Sore feet and sunburn were healed and in the words of one of the instructors, they even began to look like soldiers. Such things as map reading and field craft now were taken up. The latter at first seemed like a glorified game of cowboys and Indians with much crawling around in the bush and argument as to who had shot or captured who but with a little practice it became, probably the best liked feature of the camp.

Shooting on the rifle range was a new experience for many of the members of the detachment but the stores made were creditable.

Towards the end of the period route marches of from five to eight miles were made, one at night and another while wearing full marching equipment consisting of pack,

Second Camp

Most notable of events during the second period of encampment was the choice of the better men among the detachment for the Guard of Honor to Princess Alice at the Convocation exercises today.

Two full days of shooting on the ranges, one under an exceptionally hot sun, and the second during a driving rainstorm did not bring the firing scores up to the standard set by the first detachment. The second detachment, however, showed their superiority in another way; the ability to withstand the route marches and manoeuvres with much less foot trouble. Blisters on soles were kept to a minimum by foot inspection before and after all route marches. This practice was carried out by the platoon commanders with all possible thoroughness.

Although bed-making and dish-washing robbed the atmosphere of any sense of luxury, the more satisfying feeling of being independent of the services of the opposite sex stood out as a remunerative factor.

Reveille at 6:00 a.m. was announced first by a bugler, and was followed by an arousing rendition on the bagpipes at close range. In fifteen minutes the whole detachment was on the parade ground ready for a sprint to the P.T. area. The physical training itself required a good deal of energy, and coming at that hour, would have encouraged an immediate return to bed, were it not for the necessity of meeting the requirements, calling for a thorough cleaning of rifles, buttons and boots before breakfast, which did not come until 7:20. With so long an interval to whet the appetite, anything edible would have been welcomed. However, breakfast, consisting usually of oatmeal, milk, bacon and eggs, coffee and bread, left nothing wanting.

With such a beginning in the morning, the cadets were ready for as much training as the instructors could subject them to during the day. It included bayonet drill, field-craft, map reading, route marches and shooting. The night march, coming after a full day of activity, was perhaps the most trying on the feet and general energy level, but no casualties were suffered, and gastric emptiness was relieved by bread, jam and coffee in the mess at midnight.

M.R.T.B. camp was perhaps the scene of the greatest McGill spirit ever built up. The spirit de corps easily surmounted that experienced at the University during the years when inter-collegiate sports were at their height. Inter-platoon rivalry was instigated mainly by the composing of ditties to the tune of "John Brown's Body" in which Cadets Wilkinson and Wyatt on 10 platoon showed where their talents lay.

The appreciation of the cadets for the efforts of the officers was shown by the presentation of gifts from each platoon. The officers were the same as those in charge of M.R.T.B. during the college term, and the results of their instruction and the willingness of the men were seen in the march from Windsor Station to the Armory last Sunday when they returned from camp. Smartness and precision were the highlights noted by military authorities witnessing the parade.

gas respirator, water bottle, bayonet, rifle, etc.

At the end of two weeks, most of the cadets were looking forward to going home, although many admitted that camp had been much better than they had expected. The rigid "do as you're told when you're told" discipline, the daily inspections of uniform and equipment, necessitating constant cleaning and polishing; the Physical Training at 6:15 every morning, rain, shine or snow; the hard work and regular hours were all a great change from the usual life of a student but none regretted them.

Two big events in the year's history of McGill's armed forces.

ABOVE.—The M.R.T.B. being inspected by Maj.-Gen. T. L. Tremblay, C.M.G., D.S.O., E.D., Canadian Army Inspector General for Eastern Canada. General Tremblay, accompanied by Brig.-Gen. E. de B. Panet, C.M.G., D.S.O., officer commanding Military District No. 4, saw the M.R.T.B. during the afternoon and the C.O.T.C. during the evening. In the top photo members of the Reserve Battalion engage in rifle drill under the eyes of the inspecting party. Below students hear a lecture on the Thompson sub-machine gun.

LEFT.—Brig.-Gen. Panet taking the salute in front of the Art Gallery Sherbrooke street west, as the McGill C.O.T.C. and the Reserve Training Battalion march past following the church parade last November. Leading the column in the picture is Major O. B. Rexford, officer in charge of training, all arms.

On Active Service

(Early this month letters were sent to the 99 men who left McGill during the past session to go on Active Service inviting them to send a letter to the Daily telling about the particular phase of Service they are engaged in. The following were among the replies received.)

R-79443

No. 4A Manning Depot R.C.A.F. Barracks 8A St. Hubert, Quebec

Military Editor, McGill Daily:

Dear Sir.—Everything in the R.C.A.F. is just fine. There is a close resemblance between the Air Force and Old McGill, in that you meet the best from every part of the globe. Our officers, like those in the M.R.T.B. are tops.

As there are a large number of McGill boys in the R.C.A.F., it is my ambition to fly in a McGill squadron. I hope something along this line can be arranged.

The very best of everything to everyone.

Sincerely,
Douglas McMillan.

May 22nd, 1941.

Military Editor, McGill Daily:

Dear Sir.—Having received your letter of the 12th of May it is with great pleasure that I am writing this letter to my friends back in Montreal.

I am fully convinced now that the army is the best place in the world to be at the present time. Even though a good many of you have had M.R.T.B. training both during the winter and at camp this spring, you can never get the proper aspect or spirit till you are into it properly. The feeling prevails that there is a job to be done and

we must get on with it, and one and all to make the best of it.

Down here when we are not being pioneers pulling out tree stumps or swimming in the mud, the work is extremely interesting. We are learning to drive all sorts of vehicles with many wild rides in the learning.

We are all occupied twenty-four hours a day at one thing or another. When it is not work it is sports, either softball, football or soccer.

My last wishes to all of you up in old McGill and I hope to be seeing you soon again.

Yours sincerely,
John G. Hampson, Lieut.

Officers Training Establishment
c/o Fleet Mail Office
Halifax, N.S.

Dear Bob:

We have just started training for three months, in subjects such as Gunnery, Pilotage, Seamanship, Torpedo and Signals. Montreal has sent the largest number of Probationary Sub-Lieutenants. Others come from Ottawa, Toronto, Kingston, St. John, N.B., Moncton, Charlottetown, Halifax and other cities.

After our course is finished we have no idea of what our appointment will be (provided we pass our courses successfully).

This group of officers is drawn from all walks of life—newspapermen, bank clerks, architects, college students, salesmen, civil service, business and others. It is an inspiration to see how keen every one of them is to get going and do something.

The Canadian Navy is showing its true worth, and will show it more and more as time goes on.

Best of luck and happy sailing from the Navy.

Yours sincerely,
Pete Molson,
Sub-Lieutenant R.C.N.
P.S.—The McGill lads will be thinking of you all on the 29th.

No. 2 S.F.T.S.
Uplands, Ottawa.
May 19, 1941.

Military Editor,
McGill Daily.

Dear Sir:

The Convocation Issue should be jolly interesting to the chaps who have joined up, if the other chaps who have joined up write in something about how Service life strikes them—if you get what I mean.

Training to be a pilot I've run into dozens of other fellows from Montreal doing the same thing, so the system probably isn't new, but it seems to remain interesting, even to us. The first taste of flying comes at Elementary, after long weeks of guard duty, etc., and those light planes certainly take a beating from the novices, though here and there there are chaps who have flown before and who are more considerate. Service Flying is a lot harder, or is for me, but after a while you begin to think you can fly, and that's when the rude shocks come. Like today, when another chap and I were flying formation, and were so busy watching each other, interpreting signs, and doing turns that when the time came to go home, we both realized we were completely lost. Fortunately, there were some maps in my ship and we finally found ourselves, but it just shows to go you.

Well, I'll be getting leave soon, and I'll see you then. Best luck,
KEITH PALIN, R.C.A.F.
(Continued on page 12.)

COED TRAINING ENDS SUCCESSFULLY

C.O.T.C. COURSE DETAILS GIVEN

First-aid, Emergency Training Included in Program

M.R.T.B. Members of Good Standing Eligible

Period of Enlistment to Be for One Year

Members of the M.R.T.B. who are recommended by their Company Commanders and are prepared to attest on the same conditions as all other cadets will be accepted for training in the Canadian Officers' Training Corps. It has been announced in a joint statement issued by Principal F. Cyril James and Lieut.-Col. J. M. Morris, Officer Commanding the C.O.T.C.

The conditions referred to in the statement are that enlistment is for a period of twelve months. This includes two weeks of camp in June of this year. Also each cadet is required to sign over his pay to the unit, which is pooled for the benefit of the C.O.T.C. as a whole.

Training at present is carried on three evenings a week, and on occasional Saturday afternoons, but according to the statement the possibility of late afternoon parades to replace evening parades for undergraduates is now under consideration. It was emphasized however, that it is still too early to make any definite announcement on this matter at this time.

All interested in this matter are invited by the principal and the colonel to send their names in promptly to the orderly room where they will be given consideration by the Company Commanders.

The text of statement is as follows:

Members of the M.R.T.B. who are recommended by their Company Commanders as having shown promise of making good. Officer material will, however, be accepted for Training in the Canadian Officers' Training Corps if they are prepared to attest on the same terms and conditions as apply to all Cadets in the Corps.

1. Enlistment of the Cadet for 12 months, plus the term in Camp between the 15th and 28th of June, inclusive, this year.

2. Waiver of Cadet's Pay, which is pooled for the benefit of the C.O.T.C. as a whole, but the Cadet

The biggest headline of the year was the announcement that McGill co-eds would undergo four hours military training a week to equip them to face the disasters of war. This program, in which some 800 women students enrolled, aimed at providing special training for effective assistance in event of emergency, and such physical training as will make for fitness to undergo long periods of physical and mental strain.

The course was initiated by a six weeks' study of the principles and practices of first aid given under the auspices of the St. John Ambulance Association. Included also was the importance, place and methods of psycho-therapy.

The training plan proceeded with a fairly comprehensive study of the afflicted community. The supplying of food, shelter and heat under emergency conditions, both for workers and victims, was studied. This not only involved a study of the regular channels of food supply, but also such practical aspects as food values, the organizing of canteens, emergency rationing, the selection, cost and dispensing of foods for children and adults, contamination of foods by gas, glass, etc., chemical and bacterial contamination of milk and water supplies, the nature and menace of water-borne diseases, and various methods of decontamination. Some attention has been devoted to evacuation problems, especially the handling of evacuees.

A strong emphasis was also placed on the second phase of the program, that of physical training. Intramural athletics occupied the place of inter-collegiate athletics of other years. Organized on a voluntary basis these were supplementary to the required physical training.

A large number of co-eds have gone further than the requirement and have organized themselves on a voluntary basis for more extensive study of different phases developed in lectures, and the practical results were in the nature of a week's "black-out" of the Royal Victoria College, air-raid drills, canteen organization, public health, the possible conversion of R.V.C. for emergency housing purposes, and evacuation methods.

OFFICERS' UNIFORMS

● Officers' uniforms must conform to regulations as to style, but you may be your own judge in the matter of tailoring. Tip Top uniforms, tailored-to-measure for all three branches of the service, hold top rank position because they are correctly and

carefully tailored of fine materials to give dependable, smart and comfortable wear under the most trying conditions.

Correct raincoats supplied for all three services.

TIP TOP TAILORS Ltd.

ABOVE, RIGHT. Captain G. F. Savage and a portion of the C.O.T.C. Infantry Wing work out a tactical exercise on the Sandtable in the Sir Arthur Currie Memorial Gymnasium Armoury. Much of the cadets' instruction in tactics takes this form, the remainder through use of lectures and outdoor schemes.

ABOVE. Two views of Musketry instruction which played a large part in the training schedule of the M.R.T.B. The upper picture shows a member of the battalion using the spotlight rifle on the range in the Gymnasium Armoury, while in the lower picture, Captain E. R. Payen, Chief Musketry Instructor explains the army method of indicating targets on a landscape scene.

RIGHT. Gas Drill formed an important item on the training schedule. In this picture the cadets complete with field web equipment, tin-hats and anti-gas equipment are receiving instruction from Lieut. M. A. Ross in the art of rolling the capes. It's an operation which can't be done alone, so the boys are helping each other out.

McGILL'S MILITARY FORCES— THE YEAR IN REVIEW

McGill University has played an important part in the National War effort ever since the conflict broke out in September 1939 but, largely as a result of the events of the spring and summer of 1940, the activities of the past session assumed a magnitude and an importance that was entirely unprecedented.

The McGill Contingent Canadian Officers Training Corps (140th Batt. C.E.F.) had been active ever since war was declared, and had expanded both in numbers and scope of training to an unparalleled degree. But when Canada, influenced by the threatening trend of events across the Atlantic and Pacific, adopted the principle of compulsory military training a new problem and a new opportunity were created. The result was the birth of the McGill Reserve Training Battalion, which offered to every undergraduate the opportunity to train part-time right on the campus. Military activities on the campus thus fell into two classes: The C.O.T.C. continued to train officers for both the Active Canadian Army and the Reserve Canadian Army, while the M.R.T.B. furnished basic training for all students.

McGill Reserve Training Battalion.

The McGill Reserve Training Battalion was called into being as a result of a conference between the University authorities, the Department of National Defence and the Department of War Services under the authority of the National Resources Mobilization Act.

In accordance with its purpose the M.R.T.B. gave each student, with the exception of those who were legally exempt, six hours training per week, divided approximately into two hours physical training, two hours drill and two hours musketry instruction.

The training received was of the same basic type that is given to a soldier in the early days of his Active Service Training. The students proved that they could readily adapt themselves to this taste of army life, and their instructors were gratified with the rapid progress they made from the earliest days of their training.

While schedules of training were being drawn up to include all parts of the proposed training, most of the hours were spent drilling, and after the first few drill-sessions the companies had given ample proof of their ability by

the soldierlike manner in which they executed the newly learnt drill movements.

When the schedule was complete it was found to be thorough and well-rounded. It included physical training which was the responsibility of the Department of Physical Education. Morning and afternoon last autumn at Molson Stadium could be seen gray-haired creaky-limbed seniors receiving their first taste of physical jerks since their school days. By the time spring rolled around, however, the stiffness had worn off and all had benefitted by the strenuous exercise. In addition to foot-drill and rifle drill, the students received the usual training of a soldier in gas-drill, bayonet fighting, and route marches. Musketry instruction under the direction of Capt. C. R. Payen was carried on, and the rifle range was in use.

Lectures on various military topics also formed part of the training schedule. As long as fair weather permitted both in the spring and fall the stadium and the drill ground to the east of the Armoury were used. It was fortunate that the Gymnasium-Armoury was completed by the time the session started as even its ample facilities were strained to the utmost.

An important feature of the year's activities was the issue of army boots to the trainees. This added much to the smartness and precision of the drill, and incidentally furnished a ready means of identification, for in all parts of the city the heavy black boots and the gray and white socks were familiar sights.

The Contingent's main appearance was at the church parade held in November. Both battalions were in attendance, and the parade was accompanied by the C.O.T.C. pipe band and the Vickers Boy Scout Band. The contingent was led by Lieut.-Col. Morris, M.C., V.D., officer commanding and the salute was taken by Brig-Gen. E. deB. Panet, Officer Commanding M.D. 4.

A further demonstration of the quality of the training in the M.R.T.B. was given at the Gymkhana held early in March in the Gymnasium when members of the battalion put on a fine show with good demonstrations of foot, arms and rifle drill, done in the best military manner.

A splendid addition to the M.R.T.B. was the band which underwent a complete revamping and emerged as an integral part of the battalion, with a reputation of being among the best military bands in the Montreal area. Constant practice and the skillful leadership of bandmaster Jim Kerr, were important factors in this triumph.

One aspect of the M.R.T.B. was particularly in evidence during the spring and winter months. In the words of Major Field, O.C. of the battalion the unit seemed to be becoming a temporary one, with hardly a day passing without someone coming in to say goodbye prior to their departure with armed forces of the Dominion.

McGill Contingent C.O.T.C.

While the M.R.T.B. was busily engaged in providing basic training for all undergraduates, the C.O.T.C. was continuing with its program of training men for commission with both the Reserve Canadian Army and the Active Canadian Army. As a result of the increased military activity transfers were more frequent, and at the end of the winter more than 500 cadets were already serving with various units of the Canadian Army, while others had enlisted in other services.

Nearly nine hundred cadets were serving with the contingent during the winter. This group consisted mainly of graduates and past students, and included a small number of undergraduates, most of which were in their graduating year.

The experience gained by the officers of the contingent had enabled them to provide sound training that continues to improve from day to day. Divided into five specialists groups following their common to all arms examinations, the cadets underwent intensive training in the branch of the service that they had selected. Major O. B. Rexford was appointed to co-ordinate the training in all arms, while Major J. C. Hope was appointed Chief Instructor and full time assistant to Major Rexford.

Before the opening of the present session the policy of accepting only men who are willing to pledge themselves to overseas service was adopted by the C.O.T.C., thus ensuring that there would be no shortage of officers for units proceeding overseas.

ABOVE. M.R.T.B. training wasn't all rifle drill and musketry instruction, as this picture illustrates. Soldiers must be in good condition, so P.T. formed a large part of the course. Here the boys are going through a wall-scaling agility test.

ABOVE, LEFT. Major J. G. Hope, Chief Instructor of the C.O.T.C., demonstrates the latest developments in barbed wire entanglements and their use in modern warfare before a class of cadets. The model entanglements are good representations of the actual thing.

ABOVE. Members of the Reserve Training Battalion receiving instruction in the mechanism and handling of the Bren Gun. In the upper picture Sgt. Balser, 1st Bn. 17th D.Y.R.C.H., explains the fine points of handling the Bren on an anti-aircraft mounting. In the lower picture, assembling the Bren Gun is the topic of the lesson given by Sgt. Feltus, 1st Bn. 17th D.Y.R.C.H.

LEFT. Lieut. M. A. Ross in charge of gas instruction shows the boys something about the gentle art of bayonet fighting with gas equipment in the position it would be in the midst of a gas attack.

Grads Hold Annual Sports

CLASS OF 1941 TAKES PART IN VARIED SPORTS

Tennis Competition Called Off
Due to Poor Weather

WINNERS RECEIVE CUPS

Presentations to Be Made
at Convocation Ball
Tonight

With the tension of waiting for exam results over, the usual annual occurrence is for the guys and gals to let off steam with a little light exercise during Convocation Sports Week. This year was an exception to the usual procedure only in that it was more successful than usual. Under the chairmanship of John L. Maw, the Convocation Functions Committee organized the three sports, tennis, golf, and baseball and took care of the difficult task of keeping track of what went on during the three-day period. Included in the committee were Dora Hart, M.S.P.E.; Eric Smith, MacDonald College; and Lindsay Mussels, Dentistry.

An entry list of fifty names was made out for the tennis department but due to courts being kept soggy by rain, this sport had to be cancelled. Softball matches took place on the campus every morning and afternoon while the Mount Royal Golf Club played host to the graduates for the pill pushing contests.

To-night at the Convocation Ball the winners of the men's and women's golf matches will receive a silver cup as will those on the victorious ball team.

KEY WINS GOLF

Jack Key registered a low gross of 82 to take the men's golf crown with Jack McJannet placing second with a 91. Betty Jane Chilson romped around 36 holes with a total of 217 and thereby took the title of graduate queen of the links. A couple of missed putts behind came Marie Amory with 219 for No. 2 position. The rest of the field are reported to have enjoyed themselves stumbling through the underbrush in pursuit of lost balls.

The campus diamond was principally concerned with the rivalry between Medicine and Engineering as well as worrying about just where the portable bases should be placed. The Meds and Plumbers won every one of their games but due to the fact that for some reason the doctors defaulted their game to the Engineers it will be the latter who will line up to receive the silver trophies tonight. Deserving a great deal of praise for their enthusiasm, the M.S.P.E. girls managed to get nine members out for each one of their scheduled games despite the fact that there are only eleven in the graduating class.

A lot of the credit for putting the Meds up in second place must go to catcher Chalmers who talked about the best game of anybody in the Convocation Baseball League. His withering volley of double talk had a noticeable effect on not a few of the members of the opposing teams who came up to bat against the Meds. Ev. Cooper of the same team was also considered a handy man with his vocal organs and helped to fill in when Chalmers stopped for air. Also mentionable on the M.D. team was Whitlaw, who gave evidence of a good many hours spent on the sandlots.

ENGINEERS WIN SOFTBALL

Pitcher Cliff Morse of the Plumbers put in a stellar performance in each of the games as did his team mates Ted Gordon and Gordy Russell. Those on the team who will receive awards are as follows: Cliff Morse, p.; Ted Gordon, 1st b.; Tom Harvey, short; Orlando Cardilla, r.f.; Stu Jamieson, c.f.; George DeWitt, 1st; John Maw, 2nd b.; Harold Reaves, c.; Gordy Russell, 3rd b.

Due to the great number of members of the graduation class of Dentistry, Commerce, and Law who have joined the armed forces, none of these faculties fielded a ball team while a few of the other faculties were rather sporadic in putting in an appearance at the scheduled times.

SPORTS ARE SUCCESS

Last year's Convocation sports session turned out to be a bit of a flop with no winners announced in (Continued on page 12.)

REDMEN FLY FOR PUCK LAURELS

Bud Farmer, Bruce Ward and friend pose for the cameraman on their way to Toronto. Together with Grant Morrison and Ross Ritchie, these boys were kept rushing from city to city so as to play with their Junior Royal team and write their exams at the same time.

Ritchie, Morrison, Farmer and Ward Star on Junior Royals

Despite the cancellation of Intercollegiate sports this year McGill still had its hockey heroes in the persons of Ross Ritchie, Bruce Ward, Grant Morrison, and Allan (Bud) Farmer, who led their junior Royals to their first junior eastern hockey championships.

It was with great interest that everyone at McGill followed the exploits of these pucksters through the eastern junior finals and through the five-game Canadian finals, in which the local squad forced the Winnipeg Rangers to the full extent of the series.

Playing against the handicap of having to journey to Toronto for the majority of their games, the Royals did surprisingly well and our McGill pucksters especially gave a fine account of themselves.

As all hockey fans will remember, the junior Royals after taking Ottawa into camp in two straight games in the eastern semi-finals, advanced to meet the Oshawa Generals in a series in which the Royals were given little chance to survive by the experts. Despite the ill omens and long faces, however, the Royals proceeded to startle the

hockey world by upsetting the highly touted Oshawa sextet to the tune of 7-4 in the opening tussle.

After showing their ability in this initial game the Royals continued to give all they had and finally emerged from the series with the eastern championship, the first such title obtained by a Quebec team in the history of the championships.

Working under the additional burden of exams at the time, the McGill boys on the squad had to commute between Montreal and Toronto taking the train home after each game to write exams and flying back to play hockey that night.

This was the first time that most of the boys had flown on commercial transport planes and they all had quite a thrill. The story goes that on the first trip goalie Ross Ritchie had just taken his seat on the huge transport across from an Air Force officer when the plane took off. Feeling an initial moment of anxiety Ross's nerves were quieted somewhat after watching the Air Force officer take out his paper and calmly begin to read. Matters

(Continued on page 11.)

OPEN B.W. & F. MEET CLIMAXES SEASON

Successful Year Brought to Close With Gala Meet in Gym

After the last regular issue of the Daily had gone to press the ring and mat men at McGill held their open B.W. & F. Meet up at the stadium. Although the turnout for this could have been greater in some departments, the meet on a whole was a successful conclusion for the year's activities of the boxers, wrestlers and fencers.

The results of the meet on an Intercompany basis found the Engineers from E Company the winners in the boxing, while C Company took the wrestling and A Company were on top in the fencing. Along with the boxing, wrestling and fencing the gymnasts also showed their wares on the various gymnastic equipment to the varied expressions of awe from the assembled audience. D Company were the final victors in this latter field.

SIMPSON WINS HEAVYWEIGHT TITLE

Some of the outstanding individual achievements in the meet included the boxing of Simpson in the heavyweight class to walk off with the college heavyweight boxing crown and the showing of Baburek in the 145 lb. class to win the title.

In the wrestling field Sabbath took the title in the 135 lb. class, while Al King was victorious in

Sports to Come

The matter of the advisability of resuming Intercollegiate sports during the forthcoming season has been discussed fully by the student bodies on practically every campus across Canada, and in spite of the wealth of controversy which has attended this question nothing certain can be said about the possible outcome of such athletics in the future.

The general opinion among the majority of students seems to be that despite the extensive intramural athletics which were organized to take the place of Intercollegiate sports there was something lacking due to the cessation of Intercollegiate sports. The main reason behind the desire for Intercollegiate athletics seems to be the wish for something tangible for which the athletes may play and for which the spectators may cheer. Despite the very good work done at McGill during the past year to promote Intercompany sports there was never the true feeling of sporting rivalry between the various teams which marked similar college tussles.

With an eye toward the feelings of the students on the campus, therefore, the Advisory Athletics Board recently met and passed the following resolution which clearly expresses the wish of the student body along this line. The resolution reads as follows: "This Board is interested in giving further consideration to the advisability of conducting a limited number of exhibition games provided the circumstances seem appropriate and that other members of the C.I.A.U. are of the same opinion."

The next move toward a solution of this problem will be a meeting of the Canadian Conference of Universities which is scheduled to meet sometime early next month. At this meeting will be a representative from each college and when the result of this meeting is known the Canadian Intercollegiate Athletic Union is scheduled to meet and pass upon the decision concerning Intercollegiate athletics during the coming year.

From the views expressed at other colleges it appears that Western is most desirous of a resumption of Intercollegiate athletics while McGill and Toronto will favour a return of Intercollegiate sports on a modified scale during the coming season. Queen's do not appear to be so much in favour of Intercollegiate sports, although during the year they held several exhibition games.

Without attempting to state the attitude of any body at McGill on this question, it appears that the best solution to this problem would be the resumption of Intercollegiate sports on a modified scale. The resolution passed by the Athletic Board which, of course, is merely pending action of the Intercollegiate Union, seems to express this opinion as being that of the students at McGill as a whole. Such a form of college athletics would promote friendly rivalry between the various colleges and tend to unite students in these colleges. The enthusiasm shown for college sports also increases the sporting spirit among the students and provides keener and greater interest in all such sports.

While it appears improbable that Intercollegiate sports could be carried on as in peace time, it seems that a modified form of college athletics would do much more good than harm to the physical fitness campaign being carried on at the various colleges. In many sports the necessary outlay for coaches and equipment is small while in other sports the income from the college games would far offset any initial cost of carrying the game on an Intercollegiate basis.

Pending the decision of the C.I.A.U. nothing certain can be said as to what form sports at McGill will take next year, although it is quite certain that no matter to what extent Intercollegiate sports are carried on, the present plan of Intercompany athletics will be continued, providing, of course, that the M.R.T.B. carries on next year as it has done during the past season.

INTERCOMPANY SPORT SYSTEM SUCCESSFUL

Record Number Compete Under New Athletic Plan

Year's Review Shows Increased Activity Despite Cancellation of Inter-collegiate Sports

No matter what this year's crop of campus sport fans may have thought about the curtailment of the rah rah brand of athletics, there were very few who could find fault with the new setup that took the place of intercollegiate sports. The formation of the M.R.T.B. lent itself admirably to the organization of this Intercompany program and also made it possible to subdivide the team system still further with Interplateau competition.

Although the presence of the new system was responsible for a good portion of the jump in athletic participation, the official figures showing a record number of students enrolled in the various college sports speaks well for this year's Intramural system. The principal reason for this was that through this program every student could avail himself of the coaching facilities reserved in former years primarily for those on the intercollegiate teams.

JEAN RICHER NET CHAMP

The early organization and the subsequent success of the Intercompany sports plan were due to the Department of Athletics, the Students Athletic Council, and the enthusiasm and co-operation of the student body. Invaluable aid was also given by the squad leaders and the Intercompany sports council headed by Morris Gervais.

Tennis was the first sport to make its appearance on the campus and after a long drawn out series of matches, slowed down by poor weather, Jean Richer emerged as college racquet champ. Track, Softball and Golf also got underway and adapted themselves to the Intercompany plan.

AIR FORCE TAKES GRID TITLE

Finding it hard to get the originally planned seven football teams organized, Coach Doug Kerr devised all those who turned out for grid practice into three teams and gave them the appropriate war time names of Army, Navy, and Air Force. The players on these teams earned points for their company by their participation and those on the winning Air Force team received an added bonus of letters to hang on their company totals. Kerr supervised the whole set-up while Stu Smith, Buster Fletcher, and Johnny Cloughess coached the individual teams. The nine game schedule witnessed a good many stellar performances and gave assurances to McGill fans that they could muster a first class team should intercollegiate sports return.

Old Man Winter found the Redmen ready and waiting with their skis and skates. The Outing Club continued its activities of former years with organized ski trips throughout the Laurentian wilds together with week-end ski meets at St. Sauveur. Highlight of the ski season was the trip to the Dartmouth Carnival made by an unofficial eight-man team. New Hampshire made a surprise showing and walked off with first place, Dartmouth placed second, followed closely by the Redmen. The McGillians tried to avenge themselves later in the season by inviting the Dartmouth Indians up into their own hills but somehow plans went wrong and the Redmen found themselves shoved into the lower berth.

SELTIES CORNERED

Intercompany hockey took up a good deal of time on the Forum ice with "B" Company defeating "E" in the finals for the championship. Two other hockey loops were formed to cope with the number of students wishing to play, one of these was formed from the Company "second" teams and the other calling itself the "House League" was made up of teams from Douglas Hall, the Diocesan, Presbyterian, and United Colleges. An All-Star team from the M.R.T.B. met a Black Watch outfit later in the season for what proved to be the year's biggest sporting event. The collegians crossed the experts by downing the star-studded "Ladies from Hell" by a decisive 4-0 score.

The year's final Boxing, Wrestling, and Fencing trials were held in conjunction with the gymnast's annual Wickstead Meet towards the end of March. A new face was noticed in and about the ring that night occupying the role so aptly held in former years by Bert Light. The new boxing coach appointed to replace Bert was announced as Tommy Parr, a veteran in the realm and an old friend of Bert's. Light has gone to Vancouver as a flying officer to whip the western airmen into shape.

(Continued on page 12.)

CHAMPIONS AND RUNNERS UP AT MCGILL POSTED

Results of Individual Sports During Season Released

AWARDS TO WINNERS

B. W. & F., Track, Badminton, Golf and Tennis Results in List

The athletic office recently posted the winners and runners up of the various individual sports which were run off at McGill this year. This list which includes the results of the open and novice B.W. & F., badminton, golf, tennis, skiing, squash, and the indoor and outdoor track meet is as follows:

BADMINTON:

Singles: 1st, J. W. Kennedy; 2nd, R. M. Bell.
Doubles: 1st, J. W. Kennedy, G. S. MacFarlane; 2nd, R. H. Bell, A. W. McLeod.

BOXING (Novice):

135 lbs.: 1st, W. S. Ridewood; 2nd, J. Weldon.
150 lbs.: 1st, C. S. Baburek; 2nd, P. Covo, Y. Stamba.

175 lbs.: 1st, S. L. Baird; 2nd, B. Lockman.
185 lbs.: 1st, J. Phillips; 2nd, C. McCallum.

175 lbs.: 1st, D. Kerr; 2nd, H. Watts.
Heavywt.: 1st, R. J. Simpson; 2nd, A. P. Eadie.

BOXING (Open):

125 lbs.: 1st, Wilson Lee.
135 lbs.: 1st, J. A. Baghall; 2nd, T. Wildi.

150 lbs.: 1st, C. S. Baburek; 2nd, W. Taylor.
175 lbs.: 1st, S. L. Baird.
185 lbs.: 1st, G. A. Giovannetti.

Heavywt.: 1st, R. J. Simpson; 2nd, A. P. Eadie.

FENCING (Novice):

Final Post: 1st, W. M. Wood; 2nd, M. Levitt.

FENCING (Open):

Post No. 1: 1st, G. D. Armstrong; 2nd, V. Bogart.
Post No. 2: 1st, M. Levitt; 2nd, A. Bender.

Post No. 3: 1st, J. Mallet; 2nd, S. R. Brown.
Final Post: 1st, M. Levitt; 2nd, J. Mallet.

GOLF:

1st, Jack May; 2nd, Gordon Young.

GYMNASTICS:

Horizontal Bar: 1st, J. Foster; 2nd, W. Weber.
Parallel Bars: 1st, W. Weber; 2nd, J. Foster.

Side Horse: 1st, H. Hershman; 2nd, A. Henderson.
Vault: 1st, H. Hershman; 2nd, J. Vasilak; 3rd, J. Masse; 4th, R. Johnson.

Flying Rings: 1st, J. Foster; 2nd, W. Weber.
Vault: 1st, J. Foster; 2nd, H. Hershman.

1st, G. K. Cowan; 2nd, J. Berman.
SQUASH (First Meet):
Singles: 1st, D. Macdonald; 2nd, E. Morris.
Doubles: 1st, J. Moore; 2nd, E. Morris.

SKING (Second Meet):
Singles: 1st, J. Copper; 2nd, M. T.

B Coy. Annexes Company Crown

Pile Up Total of 1,309 Points in Intercompany Race

Final statistics recently released by the athletic office reveal that B Company took the Intercompany honours at McGill this year with a gross aggregate of 1,309 points to take a comfortable margin over the athletes from D Company who took second spot with a total of 1,067 points.

In winning top honours B Company succeeded in taking five championships, which included the outdoor track meet, interplateau basketball, and the championship hockey team.

Although D Company won eight championships to take second position in the Intercompany standings none of these championships were in any of the major sports and none earned their company more than 72 points.

A large amount of the credit for B Company's victory should go to Prof. Kelly, who personally led his freshmen engineers on to victory in many of the meets at the stadium. Through his endeavours large numbers of students were urged to turn out to at least one sport during the year and thus by strength of numbers, if by nothing else, B Company were able to pile up an insurmountable lead over their nearest rivals.

Following the second place D Company athletes were A Coy. with 1,001 points, C Coy. with 980 points, E Coy. with 826 points, F Coy. with 781 points and the Independents with 604 points.

The various championships to the companies were as follows: D Company with eight championships including Intercompany and individual badminton titles, Intercompany and swimming meet titles, (Continued on page 12.)

Gold:

Cross Country: 1st, R. Hambrook; 2nd, T. Huggeson.

SQUASH:

Singles: 1st, P. C. Landry; 2nd, R. S. Colquhoun.
Doubles: 1st, P. C. Landry, E. G. Finley; 2nd, T. C. Todd, J. W. Arbuckle.

TENNIS:

1st, J. Richer; 2nd, E. Henneman.

TRACK (Indoor):

50 yards: 1st, M. Bourne; 2nd, P. Marle.
Medicine Ball Throw: 1st, D. J. Dodds; 2nd, J. K. Mowat.

440 yards: 1st, G. K. Cowan; 2nd, B. Long.
High Jump: 1st, W. L. Percival; 2nd, W. T. Leslie.

80 yds. Hurdles: 1st, H. Walker; 2nd, D. J. Dodds.
Standing Broad Jump: 1st, H. Walker; 2nd, I. Ross.

TRACK (Outdoor):

100 yds.: 1st, M. Bourne; 2nd, L. Brocq.
220 yds.: 1st, Fulton; 2nd, D. J. Dodds.
440 yds.: 1st, G. K. Cowan; 2nd, F. W. Cleary.

800 yds.: 1st, G. K. Cowan; 2nd, F. W. Cleary.
Mile: 1st, G. K. Cowan; 2nd, D. Gibb.
3 Miles: 1st, J. Berman; 2nd, R. Hyde.

Low Hurdles: 1st, H. Walker; 2nd, J. Foster.
Pole Vault: 1st, H. Walker; 2nd, M. M. Cochran.
High Jump: 1st, W. L. Percival; 2nd, Karetta-Smart.
Broad Jump: 1st, H. Walker; 2nd,

YEAR'S MAJOR SPORTS SPECTACLE

Grant Morrison and Bill MacDonald are shown just after they had added one more to the McGill total in the only official outside sports competition of the college year. The McGillians manoeuvred the Black Watch team onto the wrong end of a 3-4 score in this game which was the principal attraction at the Hockey Carnival held towards the end of January. That MacDonald with his stick in the air and Morrison is circling the nets after the score. At the left of the picture is Captain Bean of the Kitties, while Goaler Lloyd Daniels seems rather put out about the whole thing as he rests up on his doorstep.

FINAL INTERCOMPANY POINT PARTICIPATION TOTALS

Flipping Thru the Files

Sept. 30: The Sir Arthur Currie Memorial Gymnasium, completed towards the end of the last term, opened its doors to the student body.

Oct. 3: In an interview for the sports page, Old Boy A. Dunbar Taylor '74 who played English rugby for McGill in his day, gave his definition of the present brand of football as "the illegitimate son of the English game and a Hollywood divorce, inheriting some of the good qualities of the father plus all its mother's love of spectacle."

Oct. 7: Coach Doug Kerr took the lid off another grid season by staging the year's first practice at Molson's Stadium.

Oct. 9: Going slightly afield of its campus confines, The Daily reported the winning of the World's Series by the Cincinnati Reds at the expense of the hard fighting Detroit Tigers.

Oct. 18: Asked to compare the English and the Canadian brand of football, a recently arrived English student declared that "both are played in riding breeches, a crash helmet, and medieval armour. In both the action is confined to tense gossip in midfield followed by a mighty rushing together to the deafening roar of cardinal numbers. Only in the minor rulings do they seem to differ."

Oct. 18: A cold, drizzly day dampened the spirits of a good many cinder fans on the Annual Sports Day and many of the men added a humorous touch to the meet by running in long pants and sweaters. "B" Company capped top honours by a 47 point margin. Individual honours went to Glenn Cowan who won the mile, 880 yards, and 440 yards; and Walker who took the low hurdles, pole vault, shot put, and broad jump. Rounding out the Sports Day activities, "A" Company captured golf honours aided and abetted by Jack Keay's best score of the day.

Oct. 18: Plans for an Intercompany football schedule were abandoned due to insufficient entries and in its place Coach Doug Kerr organized three teams who played as the Army, Navy, and Air Force squads.

Oct. 23: The football schedule opened as the Army Gridders were tormented by the Navy to the tune of 18-1.

Oct. 28: After numerous delays due to poor weather the tennis finals were run off between Jean Richer and Elwood Henneman with the former taking the match in three straight sets 9-7, 6-2, 6-3.

Oct. 30: The first mixed badminton night at the Gym proved a great success with the co-eds teaming up with the Plumbers et al for an enjoyable evening.

Oct. 31: George Tuley was named as the new fencing instructor replacing Maistre Blesau.

Nov. 8: A Toronto Varsity reporter got a few words out of Mary Pickford at the close of a football game in the Queen City and was amazed to find that contrary to the usual cries to shape the Canadian game after the American brand, Miss Pickford was all for doing the reverse.

Nov. 12: Glenn Cowan won his second consecutive five mile Dunlop race for the Provincial Harrier title closely followed by other Redmen, thus allowing the McGill team a sure win in the meet.

Nov. 15: The ice men got underway with their first practice at the Forum under the able guidance of Coach Hugh Farquharson.

Nov. 20: The Air Force Gridders downed the Sailors 8-0 in the final football tussle to capture the college title.

Nov. 25: The Daily sports page broke precedent by reporting the first of a series of Canadian home games, feeling that they were of interest to the student hockey fans.

Nov. 25: McGill's first weight lifting meet was held at the gym and during the night two Canadian and four provincial records were broken. Don "Hercules" Spearman shone with his demonstration of muscle man-oeuvring early in the evening.

Nov. 27: The Annual football dinner was held in the Union Grill room with the proverbial good time being had by all. Dr. Tees, for a great number of years attached to the Football Club, described how the boys got along in the old days before somebody invented football helmets. According to him they just let their hair grow and grow and grow, thus getting somewhat the same effect.

Dec. 2: McGill was grieved to hear of the death of one of its greatest athletes, FO. Bill Sprenger. Bill made a name for himself during his years at McGill as one of Canada's greatest swimmers.

Dec. 4: "B" Company took the hockey league opener by a decisive 7-2 score against "A" Company at the Forum.

Dec. 10: "D" Company splashed its way through to victory in the year's initial swim meet at which a record number of participants were entered. Eadie was the standout for the victors taking the 50 yd. free style and the 75 yd. breast stroke as well as aiding his company in the relay.

Dec. 16: The McGill wrestlers opened their season with what was termed a "friendly meet" against the Y.M.C.A. grapplers.

Dec. 18: The Gym was the scene of the year's first novice Assault-at-Arms. "A" Company fenced, boxed, and wrestled its way to top position (Continued on page 11.)

1,075 Participate in Athletics at McGill

As a result of the energetic work done by the athletic office at McGill toward putting over the new plan of athletics this year more students than ever before have participated in athletic competition on the campus. An official survey reveals that a total of 1,075 different students took part in some form of athletics at the university.

This surprisingly large number of athletes represents over 60% of the student body enrolled in the M.R.T.B. The survey shows that basketball and volleyball were the most popular sports on the campus with a total of 350 students taking part in each.

A complete list of the sports (Continued on page 12.)

Degrees to Be Awarded at Convocation Today

Many of Successful Candidates Now with Active Service Units

Over 500 Students to Receive Degrees and Diplomas in Twelve Faculties and Schools

More than 500 McGill students will receive degrees and diplomas at Convocation today. Faculties represented are Medicine, Arts & Science, Engineering, Dentistry, Music, Agriculture, Household Science, Law, Nursing, Physical Education, Library Science and Graduate Studies & Research.

In the lists below, an asterisk (*) before the name of a student indicates that he is known by the University authorities to be on active service.

The successful candidates are:

FACULTY OF MEDICINE

The following obtained high standing in Medicine: 1. Cotnam, H. Beatty; 2. Lloyd-Smith, Donald L.; 3. Grant, Austin R., Palmer, John D., Sullivan, Philip B., equal; 4. Byers, Robert J., Whitelaw, John W., equal; 5. Belton, M. Kathleen, Giberson, Herbert R., Hall Virginia C., Joron, Guy E.

Surgery: 1. Lloyd-Smith, Donald L.; 2. Mathisen, Arne K.; 3. Cotnam, H. Beatty; 4. Hall, Virginia C.; 5. Robertson, Joan S.; 6. Belton, M. Kathleen; 7. Perrigard, Gordon E.; 8. Hart, George C.; 9. Byers, Robert J. and Findlay, Douglas, equal.

Obstetrics and gynaecology: 1. Duncan, Robert E.; 2. Cotnam, H. Beatty, Lloyd-Smith, Donald L., Whitelaw, John W., equal; 3. Joron, Guy E.; 4. Graham, George W.

Pediatrics: 1. Baillie, Janet M. and Hall, Virginia C., equal; 3. Goodrich, Frederick W.; 4. Gibson, William C.; 5. Mathisen, Arne K.; 6. Mason, Vaughan C.; 7. Belton, M. Kathleen, Cotnam, H. Beatty, Lott, Bruce D., Schneiderman, Clarence K., Whitelaw, John W., equal.

Public Health and Preventive Medicine: 1. Begor, Fay B.; 2. Sullivan, Philip B.; 3. Findlay, Douglas Hall, Virginia C., equal; 5. Kaufman, Nathan; 6. Lloyd-Smith, Donald L.

Bacteriology: 1. Finkelstein, William E.; 2. Mathisen, Arne K., Schneiderman, Clarence K., equal.

PASS LIST

The following passed all the examinations of the final year and qualified for the degree of M.D., C.M.: Angus, John R. J. B.A., Victoria, B.C.; Arbuckle, John W., Vancouver; Ashkenazy, William H., B.Sc., Outremont; Baillie, Janet M., B.A., Victoria, B.C. (in absentia); Bailey, Graeme M., B.A., Montreal West; Beecher, Theodore S., B.Sc., Ossining, N.Y.; Begor, Fay B., A.B., Moriah Center, N.Y.; The Lieutenant-Governor's Silver Medal for the highest standing in public health and preventive medicine; Belton, M. Kathleen, B.A., Saskatoon, Sask.; Bourne, R. Alan, B.A., Montreal; Bradsher, Arthur B., B.A., Westmount; Byers, Robert J., B.A., Butler, Pa. (in absentia).

Cadman, Thomas A., B.A., Port Elgin, N.B.; Caldwell, Jesse B., B.Sc., Cramerton, N.C.; Carruthers, Ewen P., B.A., Virden, Man.; Cerini, Fred V., B.Sc., Montreal; Chalmers, Robert H., B.A., South Devon, N.B.; Chevalier, Paul M., B.A., Senneville, Que.; Cooper, Everett A., B.A., Ormstown, Que.; Cotnam, H. Beatty, B.A., Pembroke, Ont.; The Alexander D. Stewart Memorial Prize for the highest general qualifications for the practice of medicine; Davidson, George A., Methuen, Mass.; De Long, Robert B., B.Sc., Worcester, Mass.; Derby, A. Campbell, B.Sc., Westboro, Ont.

Donnelly, Grace C., B.A., Montreal; Douglas, Robert E., B.Sc., Somerville, Mass.; Duffy, Thomas L., A.B., Webster, Mass., Duncan, Robert B., B.A., Montreal; Ein, Harry N., B.A., Westmount; Epply, Walter G., Manchester, N.H.; Findlay, Douglas, Toronto; Finkelstein, William E., B.Sc., Westmount; Foss, Ernest, A.B., Newburyport, Mass.; Friedman, Reuben, B.Sc., Montreal; Frost, Hubert M., Vancouver; Giberson, Herbert R., B.A., Sheet Harbour, N.S.; Gibson, Frederic, Montreal; Gibson, William C., M.Sc., D.Phil., Victoria, B.C.; Goodrich, Frederick W., A.B., Catskill, N.Y.; Graham, George W., B.Sc., Montreal; Grant, Austin R., A.B., Mount Vernon, N.Y.; Grisdale, Clarence J., Kirkland Lake, Ont.; Hall, Virginia C., A.B., Marietta, Ohio, The Wood Gold Medal for the best clinical examinations in the subjects of the final year; Harlow, Charles M., Ph.D., Truro, N.S.; Hart, George C., B.Sc., Lake Placid, N.Y.; Hastings, Wade A., A.B., Brushton, N.Y.; Heath, Malcolm G., A.B., Greensboro, N.C.; Joron, Guy E., B.A., Westmount; Kahne, Harold M., B.Sc., Outremont; Kaufman, Nathan, B.Sc., Lachine, Que.; Kingston, David T., B.S., Moira, N.Y.; Lapin, Lyon, B.Sc., Montreal.

Lloyd-Smith, Donald L., B.Sc., Westmount. The Holmes Gold Medal for the highest aggregate in all subjects forming the medical curriculum. The Campbell Howard Prize in clinical medicine. The Robert Forsyth Prize for high standing in surgery. The J. Francis Williams Fellowship in medicine and clinical medicine; Lott, Bruce D., A.B., Endicott, N.Y.; McLaren, David K., Toronto; MacLeod, John A., B.A., Montreal; Martin, Franklin, A.B., South Orange, N.J.; Martin, Walter H., Sydney, N.S.; Mason, Vaughan C., A.B., Salem, N.J.; Mathisen, Arne K., B.A., Sidney, B.C.; Miller, Miriam F., B.A., Carleton, N.S.; Moore, John R., B.A., St. John, N.B.; O'Brien, Hugh J., B.A.,

Grand Prairie, Alta.; O'Neil, Vincent D., B.Sc., Concord, N.H.; Palmer, John D., B.A., Fredericton, N.B.; Parkinson, Dwight, A.B., Washington, D.C.; Perkins, Joseph A., Methuen, Mass.; Perrigard, Gordon E., B.A., Montreal; Robertson, Joan S., Toronto; Robinson, Dean A., B.Sc., Banff, Alta.; Routledge, J. Holden, B.Sc., Unity, Sask.; Schneiderman, Clarence K., B.Sc., Montreal; Scott, Henry, J., B.A., Westmount; Shuman, Richard, B.S., Dover, N.H.; Smith, Kenneth W., B.A., Westmount; Smith, Ronald B., B.A., Outremont; Stromberg, Oscar, B.A., Montreal; Sullivan, Philip B., A.B., Lawrence, Mass.

Sutherland, William H., Vancouver; Tanton, Clare W., Summerside, P.E.I.; Tanton, T. Muncey, B.A., Summerside, P.E.I.; Townsend, Robert G., B.Sc., Westmount; Verdichio, Alphonse, B.A., Montreal; Wener, Joseph E., B.Sc., Outremont; Whitelaw, John W., B.A., Vancouver; Williams, Dylis F., B.A., Montreal; Whitrow, Polly B., B.Sc., Columbus, Ohio; Young, John C. G., B.Sc., Ottawa.

Diplomas

The following have fulfilled all the requirements and have passed the examinations for the diploma in public health: Huggins, Leonard C. (in absentia), Trinidad, B.W.I.; McCall, G. Ronald, Westmount; Persaud, Ajudhia, Demerara, Br. Guiana; Zade, Assad J., Tabriz, Iran.

The following have fulfilled all the requirements and have passed the examinations for the diploma in veterinary public health: Dufresne, Joseph, La Trappe, Que.; Folsinbee, John A. (in absentia), Edmonton, Alta.; Jacob, Paul, Montreal; Knox, Melville R. (in absentia), Millbank, Ont.; Nordland, Oskar S. (in absentia), Ste. Anne de Bellevue, Que.

FACULTY OF MUSIC

Licentiate in Music, class B, performer Joseph Babary, New York, U.S.A.; Rita Greenberg, Sherbrooke; Raffaels Masella, Montreal; Williams Stevens, Montreal.

FACULTY OF AGRICULTURE

The following are entitled to the degree of Bachelor of Science in Agriculture (B.Sc.) (Agr.): Andreas, Wolfgang Albert, Bad Hamburg, Germany, second class honors; Babich, Leonard Paul, Montreal; Heatherington, Robert James, Waterloo, Que., second class honors; Herring, Charles Gordon, Lennoxville, Que.; Horner, Edward Bruce, Charters, Que.; James, Allen Pinesent, Lachine, Que., second class honors; Kerr, Louis Lyndon, Trinidad, B.W.I., second class honors. The Lochhead Memorial Prize: Mack, George Edward (in Absentia) Truro, N.S., second class honors; Morin, Clement Gaetan, Outremont, second class honors; Nussey, Albert Norris, Brysonville, Que., second class honors; Pinsky, Alex., Montreal, second class honors.

Robinson, Charles Edwin, Harvey Station, N.B., second class honors. The Stern Cup; Smith, Eric Ross, Outremont; Wetmore, Frederick Robert, Woodstock, N.B.; Williams, Herbert James, Sherbrooke.

FACULTY OF DENTISTRY

The following are entitled to the degree of Doctor of Dental Surgery: Boyles, Wm. Howard, Montreal, The Montreal Dental Club Gold Medal, and a prize in books, awarded for the highest aggregate in the final year; "Bryant, Wm. Hayden, Outremont; Dorin, Eugene, Squires, B.A., Ottawa; "Frederick, Frederick Owen, B.A., Montreal West; Godfried, William B.S., New York City; "Harvey, Robert Frederick, Westmount; Hickey, Eugene, James, Saranac, N.Y.; Kelly, John Carleton, B.S., Plattsburg, N.Y.; McKenna, Harold Emmett, Sherbrooke; Maloney, Richard, Grandon, B.A., Boston.

Moss, Carl, New York City, The Lieutenant-Governor's Silver Medal, and a prize in books, awarded for second rank standing in the final year; Mulligan, Wm. Joseph, Lynbrook, N.Y.; "Mussells, Howard Lindsay, Montreal; Poch, Lewis, Neville, B.Sc., Montreal; Reutsky, Matthew, Gomers, Manitoba; Roy, Albert, Ernest, B.A., Newton, Mass.; Syrop, Harold, Maurice B.S., Miami Beach, Florida; "Wally Kenneth, Morgan, MacMasterville, Que., Prize of the College of Dental Surgeons of the Province of Quebec, awarded to the student, registered in this province obtaining the highest standing in the practical examinations of the final year.

FACULTY OF LAW

The following are entitled to the degree of B.C.L.: Briskin, Julius, Montreal, second class honors;

Bronstetter, William Edgar, Westmount; "Doyle, James Neville, Lachine, Que., in absentia; Greenwood, Jack Lyon, Montreal; Haines, Stanley Bradley, Montreal, second class honors; Edwin Botsford Bussted Scholarship; Knox, George Blake, Montreal; Langton, Harold Glen, Swift Current, Sask.; Malouf, Albert H., Montreal, second class honors, The Montreal Bar Association prize in commercial law, The Junior Bar Association prize in civil procedure; Merfield, Russell Roy, Toronto; "Murray, James Richard, Fort Garry, Man., in absentia; "Power, William Pendleton, Quebec, in absentia; Shorteno, Peter Vincent, Montreal; Tannage, Edward G., Montreal; Trempe, Louis, Montreal; "Weldon, Richard Dale, Westmount, in absentia.

* Known to be on Active Service.

HOUSEHOLD SCIENCE

The following are entitled to the degree of Bachelor of Household Science: Buchanan, Katherine Maxine, St. Stephen, N.B.; Carlyle, Eleanor Frances, Calgary, second class honors; Cocks, Kathleen Mary, Staten Island, N.Y., second class honors; Fairbairn, Frances Mary, Westmount; Freeman, Mary Catherine, Prescott, Ont.; Goldman, Ruth Diane, Montreal; Jenkins, Eleanor Gertrude, Fort William, Ont.; Johnson, Bertha Virginia, Ste. Anne de Bellevue, Que.; Macdonald, Barbara Valentine, Moncton, N.B., second class honors.

Oland, Jean Elizabeth, Saint John, N.B., second class honors; Rosenfeld, Laura Clare, Montreal; Scott, Roberta Anne, Scotstown, Que., food conservation prize; Teevens, Margaret Eleanor, Pembroke, Ont.; Timm, Mary Elizabeth, Westmount; Treleven, Wilma Jean (in Absentia), Saskatoon, Sask., first class honors; Walley, Frances Joan, McMasterville, Que.

FACULTY OF GRADUATE STUDIES AND RESEARCH

Master of Science

Baxt, Judith Ortenberg, B.Sc. (McGill), Montreal, (Physiology), in absentia; Beaupre, Thomas Norbert, B.Sc. (Agr.), (McGill), Beaupre, Que. (Botany-Horticulture); Bezeau, Louis Manning, B.S.A. (Toronto), Kitchener, Ont. (Animal Nutrition and Breeding); Douglas, John Macdonald, B.Sc. (Saskatchewan), Dauphin, Man., (Geology), in absentia; Fortier, Yves, B.Sc. (Queen's), Quebec, Que. (Geology); Fraser, Frank Clarke, B.Sc. (Acadia), Bear River, N.S. (Genetics); Friedman, Sydney Murray, B.A., M.D., C.M. (McGill), Montreal, (Anatomy); Fu, Ch'eng-Yi, B.Sc. (National Tsing Hua University), Fukien, China, (Physics); Kerr, Ernest Andrew, B.A. (McMaster), Guelph, Ont. (Genetics); Lessard, Henri-Louis, L.S.A. (Montreal), Theford Mines, Que. (Animal Nutrition and Breeding); MacIntyre, Thomas Martin, B.Sc. (St. Francis Xavier), B.Sc. (Agr.), (McGill), Big Pond Centre, N.S. (Animal Nutrition and Breeding); Mauffette, Pierre, B.A., B.Sc., C.E. (Montreal), B.Sc. (Queen's), Montreal, (Geology); Poole, John Burton, B.A. (British Columbia), Vancouver, B.C. (Parasitology); Roche, Mary Nora, B.Sc. (McGill), Montreal, (Biochemistry); Schiessler, Robert Walter, B.S. (Pennsylvania State College), Honesdale, Pa. (Chemistry), in absentia; Wahl, William George, B.Sc. (Michigan State College), Ishpeming, Mich. (Geology); Wood, Charles Rowell, B.S.A. (Toronto), Ottawa, Ont. (Agricultural Chemistry); Wright, Annie Mary, B.A. (New Brunswick), Shepody, N.B. (Genetics).

Master of Engineering

"Brown, George Osburn, B.Eng. (McGill), Montreal, (Mining), in absentia; Demicki, Steve, B.Sc. (Alberta), Trail, B.C. (Mining).

MASTER OF ARTS

Bercuson, Leonard, B.A. (Alberta), Smoky Lake, Alta. (Education), in absentia; Birchard, Lucile, B.A. (McGill), Westmount, (French); Dwyer, Florence Mary, B.A., (College of New Rochelle), Chateaugay, N.Y. (French); Gay, Alice Grace, B.A., Russell Sage College, Pittsfield, Mass. (French); Heisler, John Phalen, B.A. (British Columbia), Vancouver, B.C. (History); Henderson, Harold Lloyd, B.A. (McGill), Freeland, P.E.I. (Economics); Kelly, Madame Marie Ste. Anne, B.A. (Marymount College), Brooklyn, N.Y. (French), in absentia; Letchevsky, Jack, B.A. (McGill), Montreal, (Economics); Levitt, Bella, B.A. (McGill), Montreal, (Classics); McDonald, Elizabeth, B.A. (McGill), Westmount, (English); Sheffield, Edward Fletcher, B.A. (McGill), Montreal, (Education); von Cardinal, Clive Helmut, B.A. (McGill), London, Eng. (German), in absentia; Whitehead, J. V. Elizabeth, B.A. (McGill), Montreal, (English); Wykes, Neville George, B.A. (McGill), Montreal, (Economics).

DOCTOR OF PHILOSOPHY

Bedoukian, Paul, B. Eng. M.Sc. (McGill), Montreal, (Chemistry); Cooke, Lloyd Miller, B.Sc. (Wisconsin), Coldwater, Ohio, (Chemistry); Duncan, Robert Daman, B.Sc. (Mount Allison), Sackville, N.B. (Chemistry); Fisher, John Henry, B.A., M.A. (British Columbia), Vancouver, B.C. (Chemistry); Forsey, Eugene Alfred, B.A., M.A. (McGill), B.A., M.A. (Oxford), Montreal, (Economics); Geldart, Lloyd Philip, B.A. (Mount Allison), Montreal, (Physics); Gobeil, Antoine René, Ingenieur Forestier (Laval), M.Sc. (McGill), Quebec, Que. (Entomology); Godard, Hugh Phillips, B.A.Sc., M.A.Sc. (British Columbia), Vancouver, B.C. (Chemistry), in absentia; Haebeek, Herbert, B.Sc. (New Brunswick), Grand Falls, N.B. (Chemistry); MacInnes, Alexander Stewart, B.A. (British Columbia), Vancouver, B.C. (Chemistry), in absentia.

Matthews, Frederick White, B.Sc. (Mount Allison), Lennoxville, Que. (Chemistry); Pearce, Jesse Arthur, B.A., M.A. (Queen's), Regina, Sask. (Chemistry); Petrie, Joseph Richards, B.A., M.A. (New Brunswick), Charlottetown, N.B. (Economics), in absentia; "Robinson, William George, B.Sc. (Saskatchewan), Saskatoon, Sask. (Genetics); Topp, Allan Crickington, B.Sc., M.Sc. (Dalhousie), Halifax, N.S. (Chemistry); Weil, Paul Gregory, B.A. (North Carolina), M.D., C.M., M.Sc. (McGill), Niagara Falls, N.Y. (Experimental Medicine).

SCHOOL FOR GRADUATE NURSES

Certificate in Teaching and Supervision in Schools of Nurses: Antonini, M. Victoria, Regina; Athelstan, Lillian A., Montreal West; Barisch, Hilda M., Saint John, N.B.; Church, Joan G. (B.Sc.), New Glasgow, N.S.; Cook, Jessie E. (B.A.), Murray River, P.E.I.; Dakin, F. Margaret, Montreal; Durrell, Kathleen S. (in absentia), Calgary; Cope, Mary Alice, Verdun, Que.; Lutton, Margaret, Saint Thomas, Ont.; McLean, Katherine G., Tomstown, Ont.; Martin, Eleanor J. (B.A.), Montreal; Morrison, A. Mary, Ste. Anne de Bellevue, Que.; Scarratt, Margaret E., Calgary; Telford, Margaret E., Moncton, N.B.; Thomas, C. Gwen, Vancouver; Toby, Frances L. (B.A.), Edmonton, Alta.; Watt, D. Martha, Lancaster, Ont.

Certificate in public health nursing: Bretzloff, Eileen R., Ottawa; Bridgett, Phyllis M., Cowansville, Que.; Campbell, Dorothy C., Van Kleek Hill, Ont.; Flynn, C. Julia, Halifax; Jackson, Bessie M., Iroquois, Ont.; McDonald, Gladys C., Regina; Michaud, Rita, Edmundston, N.B.; Morris, Jessie McD., Verdun, Que.; Mullen, Margaret Jean, Hamilton, Ont.; Richardson, Ethel M., Westmount; Terrien, Marie-Therese, Ottawa; Terrie, Edna M., Amherst, N.S.; Whiston, A. Elizabeth, Windsor Junction, N.S.; Wilson, Doris E., Outremont.

LIBRARY SCHOOL

The following are entitled to the Degree of Bachelor of Library Science: Church, Ruth Margaret, B.A., Town of Mount Royal, Que.; Cole, Alison Phebe Gertrude, B.A., St. Lambert, Que.; Downey, Margaret Abigail, B.A., Detroit, Mich.; Esalim, Isobel Margaret, B.A., Hampstead, Que.; Fenner, Kathleen, B.A., Westmount; Gourlay, John Wallace Gordon, B.A., Long Branch, Ont.; Hyndman, Catherine Primrose, B.A., Edmonton, Alta.; MacDonald, Jean Elizabeth, B.A., Fredericton, N.B.; Morrison, Marjorie Ethel, B.A., Lennoxville, Que.; Murray, Virginia, M.A., Westmount; Peart, Helen Paisley, B.A., Toronto, McGill University Library School Prize for the highest average during the year; Reynolds, Josephine May, B.A., Montreal; Snow, Virginia, B.A., Beverly, Mass.; Sutherland, Isobel, B.A., Saskatoon, Sask.; Worley, Jean, B.A., Montreal.

PHYSICAL EDUCATION

The following are entitled to the diploma of the School of Physical Education: Diploma: Amory, Marie, Montreal, (with distinction); Banfill, Doris Elizabeth, East Angus, Que.; Church, Norine Margaret, Regina, Sask.; Hart, Dora Charlotte, Indian Head, Sask.; Robinson, Norma Phyllis Margaret, Town of Mount Royal; Scarth, Agnes Elizabeth Paddon, Scotstown, Que.

Tyndale, Dorothy Margaret, Westmount, first class honors in French and second class honors in history; Veit, Wilma Lindsay, Sayabec, Que.; Wheeler, Myrna Carlene Huntingdon, Que.; Whittemore, Charlotte Jane, Englewood, N.J.; Woodyatt, Elizabeth Mary, Westmount; Zahler, Goldie Edith, Outremont.

Passed for the degree of B.Sc.

Men.

Aikin, Archibald McKinlay, Westmount, honors in chemistry; Ball, Raymond Harold, Three Rivers, Que., second class honors in Chemistry; Beauchamp, Lawrence Arthur, Rutland, Vt.; Bishinsky, Charles Alan, Montreal, first class honors in chemistry; "Bishop, Lennox Craig, Sherbrooke, Que. (in absentia); Blanchard, Robert Lorne, Westmount, second class honors in mathematics and physics; Borduas, Adrien Gilbert, St. Hilaire, Que., second class honors in biochemistry; Boright, Robert Ralston, Waterloo, Que.; Borsman, Charles Hubert Raby, Montreal; Church, Carlton Lorne, Regina, Sask.; Cohen, Montroy Joseph, Westmount; Darwent, Basil de Baskerville Trinidad, B.W.I., first class honors in chemistry; Dussault, Clermont H., Lewis, Que. Fineman, Manuel Nathan, Outremont, first class honors in chemistry; Gonzalez, Reginald Nurse, Verdun, Que., second class honors in botany; Gordon, Arthur Alexander, Revelstoke, B.C.; Gross, Jack, Hampstead, second class honors in biochemistry; Hagen, Victor John, Montreal; Hall, Charles Eric, Montreal, first class honors in zoology; Harlow, Joseph William, Liverpool, N.S.; Heron, Malcolm John, Jamaica, B.W.I.; Horwitz, Harry B., Ottawa, second class honors in chemistry; Hyde, Reed, Warren, Summit, N.J.

Kaufman, Hyman, Lachine, first class honors in mathematics and physics and the Anne Molson Gold Medal for mathematics and natural philosophy; Keefe, Edward Boyd Coltrin, Westmount; Kelen, Andrew, Montreal; Kobernick, Sidney David, Outremont; Kunin, Kalman Clarence, Montreal; Lawson, Robert Alfred, Windsor, Ont.; Lawson, Vernon Lorne, Montreal, first class honors in mathematics; Lennox, Robert Henry, Montreal; Mahoney, Richard Andrew, Holyoke, Mass.; Manning, Charles Graham, Barbados, B.W.I.; Moore, Frederick Charles, Montreal.

Moore, John Howard, Montreal; "Nussbaum, Lambert Richard, Toronto; Papazian, Levon, Nelson, B.C.; Pare, Jules Arthur, Westmount; Parker, Frederick Bemister, Westmount; Peets, Donald Leonard, Saratoga, N.Y.; "Quinn, Hubert Frederick, Montreal, honors in mathematics and physics; Rochlin, Isidore, Montreal, second class honors in biochemistry; "Roy, Ian Drummond, Montreal; Schachter, Melville, Montreal, second class honors in biochemistry; Segal, Sydney, Montreal; Shugar, Joseph Lazarus, Outremont, special certificate for distinction in the general course; Sibley, Leonard Holmes, Montreal; Silverman, Seymour Bertram, Montreal, first class honors in biochemistry; Simionovitch, Louis, Outremont, first class honors in chemistry and the Anne Molson Prize in Chemistry; Starr, Harry, Montreal, special certificate for great distinction in the general course; "Wagner, Sydney, Montreal, honors in mathematics and physics; White, Chester Wirt, Jr., Lewiston, Me., special certificate for distinction in the general course; Wright, Geoffrey Kenneth, Montreal, honors in chemistry.

WOMEN

Barber, Enid Evelyn, Milton, Queen's Co., N.S.; Cameron, Muriel Frances Isabelle, Ottawa; Flexer, Jane Rosanne, Reading Pa.; Gordon, Jean Catherine, Lachine, Que.; Halpern, Sophie, Montreal; Hanson, Hilma McLearn, Montreal, special certificate for distinction in the general course and the prize in Ornithology; Holcombe, Ada Elizabeth, Montreal West; Karp, Adele Audrey Ethel, Montreal, first class honors in biochemistry; Livingston, Constance Aileen, Montreal, second class honors in biochemistry; McDonald Elizabeth Maddock, Bronxville, N.Y.; McLeod, Frances, Westmount, first class honors in bacteriology; Norsworthy, Beatrice Mary, Montreal, second class honors in biochemistry; Seybold, Mary Margory, Westmount; Singer, Elinor, Outremont.

PASSED FOR THE DEGREE OF B.COM.

Passed for the degree of B.Com.: Alexander, George, Outremont; "Armstrong, Walter James, 2nd, Westmount; "Belford, John Alexander, Ottawa, Ont. (in absentia); Bradford, Shirley Agnes, Granby, Que., the Governor-General's Silver Medal for great distinction; the Lieutenant-Governor's Silver Medal for Accounting, Mathematics, Business Organization and Commercial Law; the Lieutenant-Governor's Bronze Medal for French and Spanish; the F. W. Sharp Prize for Academic Achievement.

(Continued on page 11.)

CONVOCATION DAY

9.30 A.M. Academic Procession
10.30 A.M. Convocation,
followed by Tree Planting
3.00 P.M. to 5.00 P.M.
Building Inspection

On Convocation afternoon at 4.00 o'clock tea will be served at Douglas Hall and at the Royal Victoria College. All graduates are invited to come and bring their parents or members of their immediate family.

10.00 P.M.

Convocation Ball For
Graduating Students

Flipping Thru the Files

(Continued from page 9.)

through the three days of the meet.

Jan. 24: The Redmen competed in their first and only outside game of the season in the realm of hockey when they downed the highly touted Black Watch aggregate by a 9-6 score. The game netted about \$1,000 for the M.R.T.B. which spoke well for more such games but somehow they never did take place.

Jan. 25: The first Intercompany ski meet was held at St. Sauveur, Stanforth took slalom honours, Moore registered the longest jump, and Morris won top individual honours with seconds in both events.

Feb. 3: The McGill he-men staged a week-long sprinting marathon in an endeavor to keep ahead of Sadie Hawkins. As per usual their stamina proved to be at its lowest ebb and most of them were caught very soon after the starting gun.

Feb. 7: Eight McGill skiers crossed the border to renew their perennial rivalry with the Dartmouth Indians at the Dartmouth Carnival. Once again their usual jinx was with them and they had to be content with third place, New Hampshire and Dartmouth taking the first two positions.

Feb. 20: The McGill Outing club held their annual Park Slide "Snow Ball" and those who weren't frozen solid put themselves on record as having had a highly enjoyable evening.

Feb. 19: The sports page ran the impressions of FO. Bill Tacon of New Zealand after his first tussle with a pair of slippery slats. "It was with a feeling of fear and trepidation," said Tacon "that we donned our skis for the first time, but despite a great many falls and aching muscles we were afraid to miss one moment of this new and delightful sport."

Feb. 25: Independants 2 won the Interplatoon basketball championship over Platoon 11.

Feb. 27: Dartmouth ski team arrived to take on the Redmen at Mont Tremblant in a return meet. McGill was once again forced to bow to the Indians.

March 11: The indoor track meet opened its two night run with "C" Company overcoming the lead which "B" Company piled up the first night to emerge with a clear win.

FACULTY OF ENGINEERING.

Honors in the graduating class, medals, scholarships and prizes as follows: (Names in alphabetical order.) Brown, William Crocker, British Association Medal; honors in electrical engineering; Montreal Light, Heat and Power Consolidated First Prize; The Institute of Radio Engineers' Prize; The Engineering Institute of Canada Prize (May 1940). Darby, John Leonard, Miss I McLennan's Special Prize for first place in professional practice. Donaldson, Desmond McIntosh, The Engineering Undergraduate Society's first prize for summer essay. Gauvin, William, British Association Medal; honors in chemical engineering. Godbout, Adolphe Gerard, The Robert Forsyth Prize in theory of structures and strength of materials. Gordon, John Abraham, Montreal Light, Heat and Power Consolidated Second Prize. Harvie, Thomas Allan, British Association Medal; honors in mechanical engineering. Jamieson, Stewart Edgar, British Association Medal; honors in Metallurgical Engineering; Sir William Dawson Research Fellowship in Metallurgical Engineering; American Society for Metals' Prize for Metallography and Thesis. McNab, Duncan Stuart, The Lieutenant-Governor's Bronze Medal in Architecture. Porter, John Cecil Hadden, The Lieutenant-Governor's Silver Medal in Architecture; The Louis Robertson Prize in Design; The Royal Architectural Institute of Canada Medal. Wither, George Malcolm, honors in mining engineering; Dr. James Douglas Research Fellowship in Mining Engineering. Passed for the degree of Bachelor of Architecture: (In order of merit.) Porter, John Cecil Hadden, St. John, N.B.; McNab, Duncan Stuart, Calgary, Alta.; Esdaile, Robert Clark, Montreal; Ross, John Kenneth, Westmount; DePierro, Henry, Montreal; Derby, John Leonard, New Glasgow, N.S. Passed for the degree of Bachelor of Engineering: (In order of merit.) Gauvin, William, Montreal; Russell, Gordon Douglas, Montreal; Hellstrom, Arne, Westmount; Tirrell, Donald Owen, Montreal; Kislewsky, Arthur, Montreal; Bercuson, Norman Leon, Outremont; Gibb, Andrew William Grant, Tuxedo, Man., and Kelly, James Oswald, Montreal, equal; Holmes, Robert Weatherhead, Hampstead; Blanchard, John Rust, Montreal West; *Jones, Edward Lewis, Calgary, (in absentia). (Unranked in alphabetical order); Coughlan, Joseph Daniel, St. John, N.B. (in absentia); *Graham, Gerald William, Ottawa, (in absentia); Macaulay, Gavin Austin, Montreal. In Civil Engineering (In order of merit): Cumming, John William, New Glasgow, N.S.; Godbout, Adolphe Gerard, St. George, Que.; Kane, Redmond John, Westmount; Hibbard, Ashley Gardner, Sherbrooke, Que.; Colditz, Herbert Ware, Montreal, (in absentia); Clark, James Reid, Sault Ste. Marie, Ont. In Electrical Engineering (In order of merit): Brown, William Crocker, St. John's, Newfoundland; Gordon, John Abraham, Canso, N.S.; Mackay, William Ronald, Pictou, N.S.; *Beecher, Keith Davidson, Montreal, (in absentia); deWitt, George Harding, Wolfville, N.S.; Copping, Edward, Joliette, Que.; Raynsford, Robert Parker, Westmount; Morse, Clifford Eric, Montreal; Korenberg, Sol, Montreal; *Wright, Austin Meade, Westmount, (in absentia); Gardella, Orlando Louis Vincent, Montreal. (Unranked): Beveridge, Harold Norman (in absentia). . . Miami, Florida. In Mechanical Engineering (In order of merit): Harvie, Thomas Allan, Westmount; Donaldson, Desmond McIntosh, Winnipeg (in absentia); Babure, Christian Stephen, Montreal; Dube, Jean Thomas, Grand-Mere, Que.; Williams, Donald Drysdale, Montreal; Keyfitz, Irving Mortimer, Montreal, and Simpkins, Arthur Chalkley, Sunny Brae, N.B. (equal); Williams, Harold Joslin, Lachine; Schwartzman, Jack, Joliette, Que.; Sergi, Francis Jose, LaTuque, Que. (in absentia); Wright, Ralph Wallace, Halifax; Pue-Gilchrist, Alfred Conde, Sydney, N.S., and *Savage, Victor Lawlor, Westmount (in absentia).

while their teammates journeyed back to Toronto. As a result of the loss of these McGill Boys the Royals dropped the first game. With a full lineup again for the second game Royals tied up the series here in Montreal, again lost to Winnipeg in Toronto in the third game and hence back to Montreal for the fourth game.

Few who saw this fourth game of the series will forget the last minute tally of the Royals to pull the game out of the fire in the last 49 seconds with two goals the first of which was netted by our own Grant Morrison. After a fine showing, however the Royals dropped the final deciding game in Toronto and thus wrote finis

to a successful season. Throughout the series the McGill boys played heads up hockey which brought the attention of many of the professional scouts. As a result of this attention Morrison and Farmer have been placed on the negotiation list of Detroit Red Wings while Eddie Shore has previously tried to interest Grant Morrison to attend fall training with his training camp. It appears, however, that these boys, who are all in Engineering will complete their present courses before thinking of any pro offers. Whatever they do let us wish them the best of luck and give them our thanks for holding up the hockey laurels of McGill.

The Montreal
Y. M. C. A.

CLASS OF 1941 TAKES PART IN VARIED SPORTS

(Continued from page 8.)

any of the appointed sports and a good number of previously purchased cups went to waste. This year only the tennis division must go unrewarded and that through no fault of the contestants. Now that the strenuous three-day campaign has been fulfilled, the contestants will be able to sit and rest, listening to any words of wisdom that may happen to fall from the mouths of the assembled speakers this morning.

RECORD NUMBER COMPETE UNDER NEW ATHLETIC PLAN

(Continued from page 9.)

INTERCOLLEGIATE SPORTS.
There is a faint chance that intercollegiate sports will be brought back next year and a more probable chance that they will be back on a modified scale, but no matter what occurs, the present intramural program has proven its worth and will more than likely be continued next year. According to Mr. Findlay of the Athletic Office the only change will be that a larger drive will be made to get even more than this year's 60% of the students enrolled in the field of sport.

B COY. ANNEXES COMPANY CROWN

(Continued from page 9.)

in each of the two meets as well as firsts in water polo and gymnastics. A Company took six championships including golf, tennis, rugby, open and novice fencing and the winning second hockey team. B Company's five championships were in the field, squash, interplatoon softball, outdoor track meet, interplatoon basketball and the top first hockey team. C Company titles were in harrier, interplatoon volleyball, the indoor track meet and open wrestling. E Company took the novice and open boxing and novice wrestling and the Independents took the intercompany softball, free throw and individual squash titles.

A complete list of the results, found elsewhere on the page, shows a total of 20 different sports which were carried on at the university this year on an intercompany basis. As a result of this new form of athletic competition at McGill a larger number of students than ever before have taken part in athletic competition. Next year the athletic office will again carry on their sports at the college along this line and it is hoped that a never larger number of students will take part.

1,075 Participate in Athletics at McGill

(Continued from page 9.)

and the number of students taking part in each follows: Tennis, 73; Indoor baseball, 150; Golf, 35; Gymnastics, 80; Boxing, 85; Rugby, 72; Volleyball, 350; Fencing, 70; Wrestling, 82; Water Polo, 64; Hockey, 158; Badminton, 98; Squash, 79; Basketball, 350; Track, 70; Harrier, 20; English Rugger, 15; Skiing, 54; Swimming, 36; Weight Lifting, 25; Rowing, 38; Sailing, 8.

Principal and Mrs. James, Vice-principal and Mrs. Brittain, Dean and Mrs. Walsh, Dean and Mrs. Simpson, Dean and Mrs. Brown, Dean and Mrs. LeMesurier, and Dean and Mrs. O'Neill. Other patrons are: Dean Douglas Clarke, Dr. and Mrs. Bovey, Dr. and Mrs. Beach, Dr. Bruce Ross, Dr. Muriel V. Roscoe, Lt.-Col. and Mrs. Morris, Major and Mrs. Field.

PRINCIPAL TO PRESIDE

(Continued from Page One.)

less than 3,000 can be admitted. Assembly at 9.45.
In the event the ceremony is conducted outdoors, the procession will assemble outside the Arts Building at 9.45 a.m. and will march down the campus drive and turn left near the gates to arrive at the site of the ceremony.

In case of wet weather graduating students will gather at 9.45 in a tent on the lot to the east of the gymnasium.
Dr. W. Bruce Ross, Dr. A. S.

ON THE RECORD

(Continued from Page One.)

For instance, in New York—judging from New York mass meetings, the New York press and open forums—one can easily get the impression that there is a sharp cleavage in the country on the matter of the Administration's foreign policy. Some of the forums have given exhibitions of verbal knock-down and drag-out fights, conducted in a high state of nervous tension.

A meeting like the mass meetings in Manhattan Centre and Madison Square Garden at which Mr. Lindbergh was the chief speaker is recorded to the extent of columns in the New York press, and one or two papers carried the full text of Mr. Lindbergh's addresses. The report is carried also by the news services and spread throughout the country. And the same will hold true of a sufficiently well-organized mass meeting addressed by speakers supporting the Administration, or urging it to be stronger.

Actually these meetings, statements, and forums are not the forces that are really making public opinion.

The solid public opinion of America is made by the natural leaders in thousands of local communities: The local school teachers and college presidents and professors; the local chambers of commerce; the thousands of clergymen who have a quiet diffusive influence among their own flocks; the local editors who are read with more confidence than the national pundits; the discussion in local granges and in trade union meetings.

Furthermore, on the lecture platforms are journalists, editors, writers and public speakers whose addresses are never broadcast in any nation-wide manner. Accounts of them are given in the local press and nowhere else.

If Mr. Lindbergh addresses 10,000 to 20,000 people inside and outside a hall in New York—or if Mayor La Guardia or Mr. Ickes address a similar body of people—it is national news. But actually an attendance of 10,000 to 20,000 people in a city of 7,000,000 is not, relatively, a big meeting. Mr. Herbert S. Agar, the editor of the Louisville Courier-Journal, and a most eloquent and moving speaker, addresses an audience of 3,000 in Chapel Hill, North Carolina. Proportionately, that is the equivalent of an audience of over a million in the city of New York, and no speaker has ever had such an audience in this town.

Edward Tomlinson in five small cities personally addressed 5.9 per cent. of the total populations. H. R. Knickerbocker, a Texas man, for years the crack roving correspondent of the Hearst newspapers in Europe, who knows more about the machinations of the Nazis than most of us do—having written a book about the Nazis which created a sensation in Germany itself—has spoken this season to approximately 150,000 people; Vincent Sheehan has addressed pretty close to 100,000; Pierre van Passen has spoken to another 100,000; Wallace Duell of the Chicago Daily News to 50,000 or 60,000.

And most people pay to hear these men, and come because the speakers do a piece of reporting on a subject that they now about. They speak in small cities for the most part, remote from the centres of news dissemination. They and scores of others have a much more diffused influence over public opinion than the big names.

During the past season—and for my own education—I have accepted invitations to speak in New England, in Virginia, Alabama, Texas, Oklahoma, Kansas, Missouri, Illinois, Los Angeles and San Francisco.

I have also used the opportunity to question all sorts of people, to listen to the local radio commentators, talk with the local community leaders, visit army camps and above all to read the local papers and their editorials, not only the local papers of the places where I have spoken but the papers that one buys from railroad stations as one passes between cities.

Now, my first impression is that the idea that there are sections of this country with radically differing views of the international situation and the attitude we should take toward it is an illusion. There is far less difference between the viewpoints of people in Boston and Tulsa, Richmond and St. Louis, Los Angeles and Kansas City, Hartford and San Francisco than I dreamed. And by and large the sentiment of this country is behind the Administration, in all classes and in all sections.

There is apprehension that we are not doing enough. But there is very little conviction that America can isolate herself and be uninfluenced by whatever happens elsewhere in the world.

And so the President was right when he said that he would trust to the opinion formed by cracker-barrel conversations. The cracker-barrel is a symbol. The cracker-barrel is the local press and the thousands of clubs and organizations through which people meet each other and exchange views. The opinion is made not by a few big names but by the sum total of innumerable influences.

I got a great deal of education out of my barnstorming trips. They were worth the strain and discomfort of travelling, speaking and writing at the same time—if only to learn again that America doesn't end or begin at the Hudson River; and that only an average proportion of its intelligence is concentrated in the midtown section of New York.

FIVE GET HONOURS

(Continued from Page One.)

took part, he served as Chairman of the 1931 Shanghai Conference of Institute of Social Relations. Dr. Hu Shih received his early education at Cornell and Columbia Universities.

Dorothy Thompson's rise to journalistic fame has been a meteoric one. Wife of a great American novelist, Sinclair Lewis, her influence on public opinion has greatly transcended that of her famed husband, who is today politically opposing her by giving support to the America First Committee. Her influence is so great in the U.S.A. today, that the development of the American mind from Munich to the Lend-Lease Bill of 1941 has been called a monument to her greatness.

Author of a widely syndicated column, "On the Record," her paens to the cause of democracy everywhere, her defence of the underdog, and her warnings to this hemisphere have been amongst the most constant and vociferous.

A graduate of nearby Syracuse University, Dorothy Thompson seldom compromises her militant stand, and as a result of this, she was driven out of Germany as a decidedly unwelcome newspaper correspondent. Russia, too, refuses her admission. Her conduct at a Bundist rally in New York in 1939, where she insisted on heckling the speakers, resulted in her ungentle removal by a "Storm Trooper."

This will mark the first time that a woman has delivered the Convocation Address at McGill and this fact is held to be ample indication of the University's admiration for her as a most effective foil to the spread of totalitarian and other nihilist doctrines.

The only Canadian on the honor list for this morning's ceremony is Dean Chalmers Jack Mackenzie, M.C., who, as acting-president of the Research Council and president of the Engineering Institute for 1941-42, heads two of the most important bodies in the Dominion in his own field. He is regarded as one of the most able men in Canada in engineering.

When General McNaughton was called to lead the Canadian forces overseas, Dr. Mackenzie was asked to leave his post as Dean of the Faculty of Engineering at the University of Saskatchewan, and to direct the widely expanded and highly important activities of the Research Council, which is now initiating, perfecting, and expanding scientific investigations into methods and facilities designed to increase the efficiency of the war effort.

COMPLETE EXAMINATION RESULTS GIVEN IN FOUR FACULTIES

(Continued from Page Five.)

Operative Technique: Asselin, Chas., B.A., Montreal, and Visser, Andrew H., B.A., Thetford Mines, Que., equal; Ostapovitch, Peter A.,

Theodore, Sask. Silver, S., B.Sc., Montreal, and Ward, R. Preston, Outremont, equal.

Crown and Bridgework Technique: Graves, Robt. Harrison, Plattsburg, N.Y.; Asselin, Chas., B.A., Montreal; Visser, Andrew H., B.A., Thetford Mines, Que., and Ward, R. Preston, Outremont, equal. Complete All Courses.

The following students have completed all courses in the first year: Leung Wah, Montreal; Asselin, Chas., B.A., Montreal; Silver, S., B.Sc., Montreal; Ostapovitch, P. A., Theodore, Sask.; Waterman, M. J., B.Sc., Saskatoon; Crutchfield, C. Bruce, Shawinigan Falls, Que.; Newell, J. E., B.A., Hamilton, Ont.; Burnett, Clyde, Trinidad, B.W.I.

The following students have completed subjects as noted: Cohen, Robt. H. (Partial), Montreal, Dental Anatomy, practical and written; Physiology, Dental Metallurgy, Dental Materials, Prosthetic, Operative and Crown and Bridge technique. Visser, Andrew H., B.A., Thetford Mines, Que., Anatomy, gross, Histology, General and Dental, Embryology, Dental Anatomy, written and practical; Dental Materials, Prosthetic, Operative and Crown and Bridge technique, Physiology.

The following students will have examination in courses as indicated: Graves, Robt. Harrison, Plattsburg, N.Y., Physiology; Mongeau, Ernest, Outremont, Physiology; Singham, Kenneth, San Fernando, Trinidad, B.W.I., Dental Anatomy, written; Physiology; Dental Metallurgy, Dental Materials; Ward, R. Preston, Outremont, Physiology.

Results in Law show that the Alexander Morris Exhibition award for the highest standing in second year was won by B. F. Clarke, while J. A. J. de Grandpre gained the Adolphe Meilhot prize for the highest standing in first year.

General standing in second year is as follows:

First class, B. F. Clarke; second class, L. A. Seton, J. G. Kirkpatrick, A. V. Mills, M. Moscovitch, von Weisl, M. Salmonovitch; pass, G. F. Clarke, W. E. Norrish, J. E. Martin and A. O. Gadbois. Subject standing in second year is as follows: Roman law—second class, B. F. Clarke, Kirkpatrick, Seton, Mills; pass, Moscovitch, von Weisl, Salmonovitch, Martin, G. F. Clarke, Norrish, Gadbois and A. H. G. Gould.

Criminal law—first class, Seton, Moscovitch, Salmonovitch, B. F. Clarke, Kirkpatrick, L. G. McDougall, Mills, von Weisl, Martin, Gould, Gadbois, G. F. Clarke and Norrish.

Civil procedure—First class, Salmonovitch, B. F. Clarke, Kirkpatrick, Seton; second class, G. F. Clarke, McDougall, von Weisl, Mills, Moscovitch; pass, Gadbois, Martin and Norrish.

Civil law—First class, B. F. Clarke; second class, Seton, Mills, Moscovitch, Kirkpatrick; pass, Salmonovitch, von Weisl, G. F. Clarke, Norrish, Martin, McDougall, Gould and Gadbois.

Administrative law—First class, B. F. Clarke, Seton, Kirkpatrick, von Weisl; second class, Mills, Moscovitch, McDougall, Norrish; pass, Salmonovitch, Gould, Gadbois, G. F. Clarke and Martin.

FIRST YEAR RESULTS

General standing in first year follows: First Class, J. A. J. de Grandpre; Second Class, D. A. Swards, P. A. Ouimet; Pass J. Swards.

Subject standing in first year is as follows: Accountancy—first class, W. T. Stewart, J. A. J. de Grandpre; second class, D. A. Swards, J. Swards, P. A. Ouimet.

Criminal law—first class, Ouimet, de Grandpre, D. A. Swards, J. Swards; second class, S. T. Kowalchuk, M. Langlois; pass, R. Maillet, G. F. Marriott, R. A. Monty, F. I. Ritchie, Stewart, P. B. Beullac, T. J. Coonan.

International law—second class, R. Chaput, D. A. Swards, de Grandpre; pass, Langlois, Monty, Ouimet, Stewart, Maillet, Ritchie, J. Swards, Beullac, Marriott, Coonan, Kowalchuk.

4. Bachelors of Library Science—Persons and property—first class, de Grandpre; second class, Ouimet, D. A. Swards, Langlois, Stewart; pass, Monty, J. Swards, Beullac, Marriott, Ritchie, Coonan, Maillet and Kowalchuk.

Roman law—first class, de Grandpre, D. A. Swards; second class, Ouimet; pass, Beullac, Kowalchuk, Langlois, J. Swards, Monty, Coonan, Maillet and Ritchie.

Results of the examination in higher theoretical subjects in first and second years at the conservatorium of music follow:

Harmony—First Year: Robert Turner, first class; second year—Katharina Schultze, second class; S. Pat Kennedy, third class; William Stevens, third class.

Counterpoint—first year—Robert Turner, first class; second year—Katharina Schultze, first class; S. Pat Kennedy, third class; Samson Rosemarin, third class.

History of music—first year—Mary M. Miller, second class; William Stevens, second class; Willy Bruneau, third class; Robert Turner, third class; Barbara Goodwin,

third class; Elaine Markham, third class; second year—Rosette Renshaw, first class; Katharina Schultze, second class; Elizabeth Angus, third class; third year—Samson Rosemarin, second class. Form and analysis—first year—Mary M. Miller, first class; Elizabeth Angus, first class; Robert Turner, first class; Elaine Markham, second class; Barbara Goodwin, second class; William Stevens, third class; Sheila Ward, third class; Mary Bruneau, third class; second year—Rosette Renshaw, first class; Katharina Schultze, first class; third year—Samson Rosemarin, third class.

Canon and fugue—second year—Katharina Schultze, first class; Samson Rosemarin, third class.

Viva voce—first year—Robert Turner, first class; second year—Katharina Schultze, first class; Samson Rosemarin, third class. Score-reading—first year—Robert Turner, second class; second year—Katharina Schultze, second class.

Final licentiate class C (teachers)—fugue, Alexander W. Lucas, third class.

The names of those who have successfully completed the first year in the school of physical education and who have been recommended for entrance into second year, have also been announced.

Miss Norma Burgess of Montreal won the junior year prize, which is awarded to the student who attains the highest general proficiency in the sessional examinations.

The names of those who passed are: Norma Burgess, Montreal; Mary Carmichael, Regina, Sask.; Sheila Farquharson, Jamaica, B.W.I.; Marguerite Harris, St. Laurent, P.Q.; Eileen Johnston, Montreal; Gladys Nassif, Three Rivers, P.Q., and Muriel Spencer, Montreal.

C.O.T.C. COURSE DETAILS GIVEN

(Continued from Page Six.)

is otherwise under no expense during his period of Training.

The C.O.T.C. Training is at present carried on three evenings a week and on occasional Saturday afternoons. Consideration is now being given to the possibility that Undergraduate Cadets might have Training in the late afternoons, in place of evening Parades, but it is not possible at this time to say definitely whether or not this can be arranged. It is anticipated that a percentage of the present members of the M.R.T.B. may wish to transfer to the C.O.T.C. for Training next season, particularly if late afternoon training can be arranged, but as it is important at this stage to know with the least possible delay how many are prepared to give serious consideration to enlistment in the Corps, including Camp on June 15th, all interested are asked to send their names in promptly to the Orderly Room, so that they may be checked by the Company Commanders.

F. CYRIL JAMES,
Principal and Vice-Chancellor.
J. M. MORRIS,
Officer Commanding, McGill
Contingent, Canadian Officers'
Training Corps.

ON ACTIVE SERVICE

(Continued from Page Six.)

Friday, May 23, 1941.

Military Editor,
McGill Daily.

Dear Sir:
I am only too glad to co-operate in connection with your excellent idea, besides far be it from me to miss the chance of getting my name in print.

I am at present working on a Canadian Minesweeper having completed a three months training course and am pleased to be able to say that it is a good life. If you will excuse the commercial plug—"Seoxyl" is an excellent remedy for sea-sickness—believe me, I should know!

Very sincerely yours,
IAN A. GILLESPIE,
Sub-Lieutenant R.C.N.V.R.

Monday, May 6, 1941.

E.O.T.C., Brockville, Ont.

Military Editor,
McGill Daily,

Dear Sir:
I have just finished reading your letter, and I am answering immediately. I don't know quite what you expect me to write about but I will jot down a few things which may interest you.

As you know, I left McGill early in January to go on Active Service in the Canadian Armoured Corps. I was stationed at Camp Borden where I spent a very busy and informative three months at the Training Centre.

The course was very extensive, and I learnt a great deal. Believe it or not, I can drive trucks, tanks, motorcycles and carriers. Rather unusual for a Commerce student, isn't it?

I was sent down here to the Eastern Officers' Training Centre at

Brockville on April 1st. As you have read in the papers, all officers going on Active Service must now take a course here.

Part of my course consists of learn the Morse code, both receiving and transmitting. I should have some fun with the other boys in my class who have gone into the wireless branch of the R.C.A.F. when I meet them.

Believe it or not, we get up at 6 a.m. and turn out for P.T. No more cutting that 9 o'clock lecture. I was surprised to find the sun up that early. But it is, really!

In the army they naturally stress physical fitness, and so we work to that end. Last week we had a 20 mile route march, dressed in battle order. Do you remember how I used to hate walking down to the Union for a book? In the words of the prophet "them days are gone forever."

But enough of this. I was pleased to hear from you, and I am looking forward to seeing you again at our Convocation. Until then say hello to any of the boys you may see.

Sincerely,
Bernard J. Finestone, Lieut.
C.A.C. (A.F.)

U.S.A. Colleges Plan Three Year Courses

In an effort to counteract the effect of the draft upon college students, an optional three year course is planned for between 400 and 500 liberal arts colleges in the U.S.A. This course, to begin this fall, should be taken by about 300,000 students, it has been estimated.

The three-year program is being sponsored by the Association of American Colleges, which numbers virtually all the standard liberal arts colleges in the country. According to the plan as outlined by Dr. Snavely, executive director of the association, the shortened course will be optional, and those students who take it will attend college for three terms each year instead of the customary two.

Harvard University has also recently announced a three year course, applying to honors students only, which is to last for the duration of the war. Students in the Faculty of Arts and Sciences will join the honor students in Chemistry, Physics, and Engineering Sciences who already have such a plan in operation. The hope has been expressed that the program will keep up the enrolment of the Colleges without lowering their standards.

EATON'S HEADQUARTERS FOR MCGILL BLAZERS

It is not only because of its location on "The Avenue" that EATON'S has become the shopping headquarters for McGill Students. EATON'S knows what you want in the way of smart campus clothes—and is the exclusive agent for McGill blazers—navy graduate as well as McGill Red undergraduate.

The well-dressed co-eds all know that EATON'S Shetland sweaters are the back-log of their wardrobe, and, of course, the men come flocking for Daks English flannel slacks.

Remember—in other departments as well, EATON'S is your shopping headquarters because "You can shop with confidence at EATON'S.—Goods satisfactory or money refunded."

UNDERGRAD BLAZERS	- - - -	10.00	Sportswear, 3rd Floor and
